Positions Seized by 'Commies'

Directly Opposite Quaking Chinese Capital; Officials Leave For Canton

By Seymour Topping

NANKING, April 21—(AP)—The Chinese Communists in great force today surged across the Yangtze river to the south bank 80 miles southwest of Nanking and seized north bank positions directly opposite this quaking capital.

Flight of the government offices remaining in Nanking began tonight, with all bound for Canton except the national defense ministry and the president's office, which were going to Shanghai.

A government spokesman tonight said elements of three Communist armies (60,000 men if at normal strength) had crossed at many points around Tikang (Tichiang) 80 miles up the river from Nanking and had rapidly unified their bridgehead.

Neutral military experts and other government quarters said the first crossing was by 8,000 to 10,000 men, but the Reds were reported rapidly expanding and reinforcing the south-bank position during the night. Heavy artillery fire from the north bank made the government defense admittedly weak and ineffective.

Other Crossings

Goernment sources reported other crossings in the general area of WUHU, only 50 miles upstream from Nanking. Confusion at national defense headquarters prevented confirmation of this.

Nationalist gunboats in the river fired all night on the attacking Reds but could not save Kiangpu, which fell this morning to Gen. Chen Yi's 35th army, the official military news agency acknowledged.

The agency said Shiherwei, on the north bank 30 miles northeast of Nanking, also had fallen.

A defense ministry source said a Red crossing to Chinkiang, on the south bank 45 miles northeast of Nanking, was imminently expected. That would cut the escape route to Shanghai, 210 miles by road and rail east of Nanking.

Mao Tze-Tung, the Communist leader and Gen. Chu Teh, his military commander, issued a special broadcast communique exhorting their troops to "liberate all China."

Province Aflame

Six hundred miles to the northwest, the isolated Shansi proince of Taiyuan was reported officially to be aflame, with hand-to-hand fighting in progress just outside its walls. All its airfield had been lost, and the city was expected to fall at any moment.

It has the government's best arms factories and is known as the Pittsburgh of China. The Reds, after trying to take it without damaging the plants, were said to have pumped 100,000 shells into the city.

The front of immediate peril to the tottering government, however, was on the Yangtze.

Boys Find $550 In Pile of Trash

PRINCETON, Mo., April 21—(AP)—Ray Barber, 12, and Bud Watson, 8, found $550 in a pile of trash in a one-room abandoned house 20 miles northeast of here yesterday.

The owner of the house, Oliver Rollins, 84-year old bachelor, has been living at the Mercer county farm the last two years. He has returned to his house several times during that period, authorities said.

The boys' parents brought the money to Princeton and notified county officials.

Kiwanis Club Endorses Park Program

Jack Cunningham Asks Support of Physical Education

Appealing for continued support of an athletic and physical education program for Sedalia boys and girls, Jack Cunningham spoke before the Sedalia Kiwanis Club in Bothwell Hotel Thursday noon. He was introduced by Roland Luster. Kennie Miller was program chairman.

Mr. Cunningham had with him a framed diagram of the present and proposed Liberty Park improvements, including swimming pool and stadium. During his talk he stressed the value of community playgrounds, the undiminished need of teaching the youths of our city to learn to play young, and live long, and become community assets. He emphasized the part physical training plays in the mental, physical growth of young people.

Resolution Passed

At the conclusion of his talk, the Rev. H. U. Campbell offered a resolution in support of the mayor, city council and park board in developing the park improvement program, which was approved unanimously by the club.

The club received two new members, the Rev. Warren L. Botkin, new rector of Calvary Episcopal church, and Arthur J. Morgan, accountant. The initiatory ceremony was performed by the Rev. Mr. Campbell, assisted by R. C. Hemphill and Edw. Mullaley.

Clyde Heynen and Herbert Schrankler jointly celebrated the advent of a grandchild by passing out cigars, to which the club responded in song.

Guests were: Mayor Julian Bagby and E. J. Drummel, Jefferson City, with J. F. Downs.

Nickel Candy Bar Is Getting Bigger

BOSTON, April 21—(AP)—If you have a sweet tooth, here's good news: The nickel candy bar is getting bigger.

Several makers of popular-price bars are increasing the five-cent confections from seven-eighths of an ounce to a full ounce. In the case of bars with creamy centers an increase in weight from 1⅛ ounces to 1½ ounces has taken place. The change is the result of a declining price of cocoa.

Club Amazed By 'Miracles Of The Mind'

Dr. Polgar Is Knife And Fork Entertainer

"Miracles of the Mind" was the program at the Knife and Fork club dinner meeting Wednesday evening in the Ambassador room of the Bothwell hotel, and Dr. Franz J. Polgar freely demonstrated his almost unbelieveable mental powers to the amazement and amusement of his audience.

Dr. Polgar, who has been giving such demonstrations for 29 years, came to Sedalia with the distinction of "having memorized the New York City telephone directory", located a postage stamp hidden in the city, and hypnotized over 500,000 persons. He presented his program to the club in these three divisions—extraordinary memory, mental telepathy, and hypnotism.

Dr. Polgar conducted his first demonstration to show his powers of memory and mathematical calculation. Basing his calculations mainly on the spontaneous suggestions of the audience, Dr. Polgar mentally worked out an intricate arrangement of figures which produced a desired sum when added in several ways. This startling feat of memory and concentration was performed in a matter of minutes, while an "ordinary mortal" could hardly hope to finish it in days.

Difficult To Forget

He then told of some of the psychogical aspects of the "photographic" memory of the subconscious mind, in which all five senses work together to bring ideas into the mind and hold them there. Dr. Polgar also pointed out how really difficult it was for the mind to forget a figure picked at random and concentrated upon for a few moments.

Mental telepathy was the next portion of the demonstration, and Dr. Polgar asked for four volunteers to select a person in the room whom he would find by their mentol directions only. This he did, locating the selected person from the crowd of over 100 people. He also left the room while his check for the evening's demonstration was hidden under a lady's hat, promising that if he could not return and find it by mental telepathy, the demonstration would be free. He re-entered the room and quite calmly and quickly located the hidden check.

Dr. Polgar stated that before the use of language to communicate ideas, mental telepathy was probably used for communication. However, as civilization progressed, this ability of the mind fell into disuse and now occurs only when the subconscious mind is in exactly the right state, as when one has a "hunch," anticipates meeting a friend, and other such experiences commonly called coincidental.

Hypnotic Demonstration

The third and most amusing portion of the program was hypnotism. Dr. Polgar received about 12 volunteers to be hypnotized, but by a series of tests reduced the group to three persons. These he could put into a deep hypnotic sleep at his will. After putting the subject to sleep, Dr. Polgar would casually give them instructions as to what to do upon awakening.

After waking them with a predetermined signal, Dr. Polgar made his subjects, in succeeding experiments ,insensible of being burned on the finger with a lighted match, feel very thirsty and go to a certain table for a glass of water, feel the urge to smoke but later throw away the cigarette as being distasteful, be unable to lift an ordinary chair which the subject had been told weighed 300 pounds; jump up from a "hot" chair, and finally be unable to leave the platform because of being anchored to the chair or being unable to move one foot from the floor. All these comic and ap-

'45 Per Cent of People Can't Build 4-Room House,' Taft

WASHINGTON, April 21—(AP)—Senator Taft (R-Ohio) told the Senate today that 45 per cent of the people of the nation can't afford to build a four-room house.

He figured the cost around $7,000.

Urging approval of a pending housing measure, the Ohioan said he thinks Congress must act speedily on housing aid.

It is one of the most important social and economic problems before the people of the United States," he said.

The pending measure would authorize the government to help finance the building of 810,000 public housing units during the next six years. It also carries authority for slum clearance loans and grants, as well as a four-year farm housing program.

Taft told his colleagues that $7,000,000,000 had been spent by private interests in the last year in building new homes. But he said that something like 6,000,000 older living units are still substandard.

"The cost of housing has become too expensive for the incomes of the people," he said. It is difficult now to build a four-room house, particularly in this section of the country, for less than $7,000.

"A family should have an income of $3,000 yearly to live in a $7,000 house and 45 per cent of the people of this country don't have that big an income."

Springtime Economy Hike Now Overdue

However Secretary Snyder Sounds Optimistic Note

By Norman Walker

WASHINGTON, April 21—(AP)—The spring season's expected boost for the nation's economy is overdue.

That became clear today from a new batch of government reports.

They showed fresh declines in non-farm employment, in factory workers' earnings and working hours, in business loans and in estimated farm receipts.

One government official, Commissioner Ewan Clague of the Bureau of Labor Statistics, said ordinarily these figures should have showed an uptrend this time of the year. He said maybe it's just delayed action, due in part to a late Easter.

However, another top official, Secretary of the Treasury Snyder, sounded an optimistic note to a New York audience last night. He said latest employment figures actually are higher than a year ago and purchasing power still is high.

200 Billion Liquid Assets

"Right now," said Snyder, "in the pockets of the American people, we have $200,000,000,000 of liquid assets."

Snyder said the present economic picture lacks the elements that "brought on depression and depression crises in the past."

'On the other hand, a third government expert, Louis H. Bean, said businessmen can cause a depression by curtailing investment for industrial expansion. He said recent surveys indicate they plan to reduce it in the next five years to 40 per cent of the 1948 level.

Bean, economic adviser to secretary of agriculture Brannan, also spoke in New York.

March Figures

Clague told a news conference the new lag in worker warnings and working hours means a cut in public purchasing power. He gave these figures for March:

Non-Farm Employment—Down 150,000 from February to 43,848,000. This is 750,000 below a year ago, when March showed a 300,000 increase over February. Non-farm employment represents about three-fourths of the nation's workers.

Factory Earnings and Working Hours — Weekly earnings down about $1 to $53.37 from February and down $1.66 from December's $55.03 peak. Working hours reduced from 39.4 in February to 38.9 in March.

A 13th consecutive weekly decline in business loans was reported by the federal reserve board. It said they fell off $84,000,000 in the week ended April 13.

Sheriff's officers testified they found a slot machine in a basement storage room at the hotel March 11, but the defense declared the machine had been left there by the hotel's former management.

Opera Singer Shot to Death

ATLANTA, April 21.—(AP)—A man tentatively identified as a member of the Metropolitan opera company was shot to death today in a setting like something of the opera itself.

Police Homicide Lieut. M. M. Coppenger said papers on the body identified him as Hans J. K. Gareis of New York City. He said other papers bore the name of John Garris.

Garris sang a role in the opera's performance of Otello Monday night.

The opera company itself was en route to Memphis, Tenn., this morning, after ending a three-day series here last night. Police wired Memphis police and special railroad agents to quarantine the train on arrival, and forbid anyone leaving it until a thorough search is made. Coppenger and a detective were ordered to fly to Memphis immediately.

The body was found about 7:45 a. m. in an alley at 305 Marietta street, in the downtown section. It was lying straight in the alley. The legs were crossed at the ankles and hands were held back with the palms turned inward, as though trying to touch the shoulder blades.

The man was in shirt sleeves. A single bullet wound was on the left side below the heart.

Coppenger said the man's pocketbook and valuables were in his clothing.

Taxpayers Can Have This Piano

JEFFERSON CITY, April 22—(AP)—David Rubinoff and his violin entertained Gov. Forrest Smith and the Missouri House of Representatives today.

The House chamber was jammed with state officials, clerks, stenographers, legislators and lobbyists.

One of the spectators was Lt. Gov. James T. Blair, Jr. He helped move the House piano into place for Rubinoff.

Rubinoff said his violin was a Stradivarius made in 1731. He thought the House piano was made the same year.

Speaker Roy Hamlin told him the piano belongs to the taxpayers.

"The taxpayers can have it," Rubinoff said.

He was here for a concert tonight.

Dies While Operating

KANSAS CITY, April 21—(AP)—Dr. Leon Rosenwald, 77, collapsed from a heart attack and died while he was performing a major operation at a hospital here today.

An assisting surgeon, Dr. James E. Walden, completed the operation on Mrs. Mary L. Jackson for the removal of a tumor.

The operation was about half over when Dr. Walden, a Negro physician, noticed Dr. Rosenwald slump. He reached across the operating table and siezed Dr. Rosenwald's wrists. Nurses came to his aid.

The veteran surgeon was carried from the operating room.

Dr. Rosenwald, who had practiced 49 years, died 40 minutes after he started the operation at the Wheatley Provident hospital a hospital for Negroes. He also was a member of the St. Joseph hospital staff. He had had a heart ailment for several years but preferred to continue with his work.

Mrs. Jackson, the patient, was doing well after the operation which produced its unexpected drama.

Important Events In World News

LONDON, April 21—(AP)—A foreign office spokesman told a news conference today British warships are entitled to be in the Yangtze where Chinese shore batteries fired on them.

"Britain is entitled to send warships into China's inland waters, provided it has the consent of the Chinese government—which it has," the spokesman said.

"It has that right in the same way that the Chinese government has the right to send her warships up the River Thames with the permission of the British government."

WASHINGTON, April 21—(AP)—The Senate beat down today the first attempt to make a major change in the administration's proposed housing program.

By a vote of 55 to 21, the Senate defeated an amendment by Senator Cain (R-Wash) to ban public housing projects in any community unless approved by a referendum vote of the people.

Cain explained that under this amendment no low-cost housing program could be undertaken "against the wishes of the people."

WASHINGTON, April 21—(AP)—Southern coal mine owners called today for early talks on a new contract, and cautioned John L. Lewis that increased labor costs might mean a sharp cut in production.

42 Known Dead From Attacks

British Ships Are Attacked on the Yangtze River, Near Nanking

SHANGHAI, April 21—(AP)—The known dead from Chinese Communist attacks on four British warships reached 42 tonight.

British naval authorities said the cruiser London had 15 dead and 20 wounded and the sloop Black Swan had five wounded.

These two latest vessels to be hit by Communist artillery on the Yangtze river near Nanking arrived back in Shanghai late tonight.

Behind them they left the crippled sloop Amethyst, first British ship shelled by the Reds about 60 miles east of Nanking Wednesday morning.

Neither the London nor the Black Swan was able to reach the Amethyst, which was driven aground on an island but later was refloated.

The known dead included 17 of the Amethyst crew, 10 from the destroyer Consort, which was shelled when it vainly sought to aid the Amethyst, and 15 aboard the London.

By Seymour Topping

NANKING, April 21—(AP)—Communist forces attempted today to consolidate newly won positions south of the Yangtze as the river battle drew four British warships into the fight.

Chinese government spokesmen said successful Communist crossings of the Yangtze, which separated Nationalist territory from Red, had been made at Tikang, 80 miles west of the capital and at Wuhu, 60 miles inland from here.

Government troops were counter attacking. A few planes and gun boats were pressed into the battle for the tottering government.

Wounded Not Determined

The exact number of wounded could not be determined, but added up to about 100 in reports from the four ships, with possibly some duplications.

The London and Black Swan wounded were placed in the U. S. naval hospital in Shanghai.

An official British statement said a Royal Air Force flying boat managed to make contact with the Amethyst during Thursday and put aboard one medical officer with supplies. The plane then returned to Shanghai.

A British spokesman said the Amethyst still was being fired on occasionally.

Attempting to Reach Wounded

A British embassy spokesman in Nanking said a U. S. navy doctor, Lt. Comdr. James W. Packard; the British assistant naval attache, Lt. Comdr. J. E. Kerans; and the British assistant military attache, K. V. DeWar-Durie, were attempting to reach the Amethyst wounded.

The spokesman said the three officers were leaving with a jeep load of medical supplies for the wounded believed to have been put ashore near Rose Island, where the ship was grounded.

The London's captain ordered withdrawal of the cruiser and the Black Swan from the vicinity of the damaged Amethyst. He said "all signs of peaceful intent have been disregarded and heavy fire opened from batteries near Bates Point and on the southern end of Beaver island (both in the vicinity of the Amethyst). This fire was effectively replied to but under such conditions (it is) clearly impossible to bring the Amethyst down river."

Message From Ships

The British consulate said it had received messages from both ships saying they had been damaged.

Meanwhile an RAF flying boat from Hong Kong took off from Shanghai with doctors and medical supplies but failed in an attempt to reach the Amethyst. The Sunderland hoped to land at Shayaoho creek, which flows into the Yangtze near the Amethyst.

Abandoned Efforts

Several hours after the takeoff the Sunderland messaged she had abandoned efforts to land. Her pilot is flight lieutenant J. H. F. Letford. Aboard was group captain K. N. Jefferson, station commander of the RAF Kaitak airfield at Hong Kong.

Late today funeral services for the 10 men who died on the Consort were held.

Early in the evening 59 survivors of the Amethyst arrived here by train from the north. Among them were five wounded.

Survivors said 89 officers and crewmen were still aboard the sloop.

Fighter Planes Crash

NUERNBERG, Germany, April 21.—(AP)—Two American F-47 Thunderbolt fighter planes crashed today near Bamberg. The pilot of one plane was killed.

It was the first fatal accident during the U. S. army maneuvers near the Czechoslovakian border.

Airforce officials said one of the planes lost its propellor during a low altitude strafing mission, but crash landed without injury to the pilot.

Red Cross is Participating in a Program With Bothwell Hosp.

Pettis County Chapter of the American Red Cross has received the approval of the national organization to cooperate with the Bothwell hospital in setting up a Type Registration blood program. Bothwell hospital has been typing donors since September, 1947, and receiving blood for persons as needed but the plan of this program will give volunteers an opportunity to be typed and called when necessary. The common name for this type of blood program is a Walking Blood Bank. The volunteer is typed and ready to give when called but the blood is not stored in a bank. It is not drawn until needed.

The following letter was received Tuesday:

"Mrs. A. A. Studebaker
"Chairman, Blood Program
"Pettis County Chapter
"American Red Cross
"605 West Broadway
"Sedalia, Missouri
"My Dear Mrs. Studebaker:

"This will confirm the approval of national headquarters for your chapter's participation in a Type Registration Blood Program with the Bothwell hospital acting as sponsoring agency to be responsible for all technical phases of the program.

"In reviewing your plan for operation, Dr. Raymond F. Barnes, director of medical and health services in this area, stated that your plan is the most thoughtfully and carefully drawn up plan of any he has seen. This is a real compliment as Dr. Barnes has examined all plans received from midwestern area chapters and many submitted by chapters from other areas.

"Your chapter is to be congratulated on participating in this service to your community. Please feel free to call upon this office for any assistance we can offer in recruiting donors.

"Sincerely yours,
"(Miss) Amy Van Hoozer,
"Correspondent, Chap. Service."
cc—Executive Secretary.

The plan the letter refers to is as follows:

Registrations will be taken at the Red Cross office. Call 618 give your name, address and telephone number and when the laboratory can type you a member of the Red Cross Motor Corps will call for you and take you to the hospital. If your type is needed at that time you may donate then. If not your type will be placed on file and your call will come later. The hospital and the Red Cross hope to have three hundred names on file within a month. Won't you call now and make your appointment for a motor corps call?

Christian Science Church Asks Change in S S Legislation

WASHINGTON, April 21—(AP)—The Christian Science church asked Congress today to amend pending social security legislation "so that Christian Scientists will be completely exempted if they so elect."

Particularly it asked for exemption from the proposed health features of the law, saying a question of religious freedom is involved.

James Watt of Washington, speaking for the church, told the House Ways and Means committee the administration's proposal to add disability insurance to the old age and survivors insurance "is something very objectionable to Christian Scientists."

"It would require them," he testified, "to pay for and accept disability benefits exclusively of a medical nature and under medical supervision." He added:

"Christian Scientists successfully rely wholly upon prayer and spiritual means for the treatment and cure of human ailments.

"Medical examination, supervision and treatment are directly contrary to the teachings of their religion and, if forced upon them, would interfere with their constitutional rights to practice their religion freely."

The Daily Washington Merry-Go-Round

by Drew Pearson

WASHINGTON, April 21 — It won't be announced officially, but the state department has taken a secret and highly significant step to try to stop the three-year-old civil war in French Indo-China.

Indo-China is a long way from the USA, but in these days of global cold war, what happens there can influence the spread of Communism in the Philippines, the Malays and India.

Therefore, Ambassador Caffery acting on careful instruction from Secretary of State Acheson, has told the French foreign office that the United States considers it absolutely necessary to stop this fighting in order to keep it from playing into the hands of the Communists.

Caffery said he was authorized to pledge the full support of the United States to French plans for creating an anti-Communist government in Indo-China headed by Bao Dai, the former emperor. The United States might even be willing to consider economic help to such a government if it kept out all Communists.

Note — Another reason why we are anxious to end this revolution is because we want the French to bring their army back from Indo-China to France to guard against a surprise attack from Russia. The French have between 100,000 and 200,000 troops in Indo-China and have sometimes been suffering 1,000 casualties a week.

No Pyramids For Bradley

Contrary to press reports, General Omar Bradley, chief of staff, has never been a member of a pyramid club. And for a very good reason.

"At West Point," says Bradley, "I taught mathematical probabilities. And even if I'd ever been invited to join a pyramid club, I wouldn't have done so, because the chances of a pay-off are too slim."

The Legion's No. 1 Lobbyist

Young Representative Olin Teague of Texas, decorated 11 times for bravery in the last war, took on a fresh battle recently with the No. 1 American Legion lobbyist.

Teague made the Legion's tough and skillful John Thomas Taylor eat his own words during his testimony in favor of the Rankin pension bill.

Taylor based his plea largely on "precedents" for pensions voted by earlier congresses.

"Just a minute," broke in Teague. "While we're on the subject of precedents, let me read from the witness' testimony on this same question when the House ways and means committee was holding hearings in 1930 on amendments to the veterans' adjusted compensation act of 1924."

Teague proceeded to quote a colloquy between Jack Garner of Texas, later vice president, and Taylor, then as now the Legion's legislative representative. Taylor admitted at that time that the 1924 bonus bill as amended would be a quitclaim against future pensions for World War I vets.

Pinned down by Garner as to whether the legislation would make future pensions unnecessary, Taylor replied, "No question about it."

When Teague finished reading from the record, Legion lobbyist Taylor looked like the Washington monument had fallen on him.

"I just wanted to get that in the record for the benefit of colleagues who have asked me about it," commented Texas' Teague. "It doesn't mean I'm against caring for war vets who are in need."

Capital News Capsules

To Stop Deflation — A group of western senators headed by Jim Murray of Montana are working up a big anti-deflation program, including provisions for a large federal lending drive to get new capital at work on the expansion of industrial capacity. . . . One of the most important points of the new Murray legislation will be authority for industry to write off all big new capital expenditures in five years or less. In other words — accelerated depreciation.

Lobbyist Dinner — The foundry industry threw a party for members of Congress the other night and sent out invitations in the name of Senator Capehart of Indiana, the juke-box king. But, of the many invited, only a handful showed up. . . . A reporter telephoned the private dining room, but was told curtly they didn't want any publicity. He went up to the room anyway and spotted Senator Myers of Pennsylvania, Democrat; Congressman Engel of Michigan, Republican; and Congressman Patterson of Connecticut, Republican. Less than 20 people were in the room and 15 of these were supposed to be foundry company executives. Later Senator Capehart admitted sending out the invitations — at the request, he said, of Richard Wagner of Indianapolis, president of the Electric Casting company.

Congress May Growl — Secretary of State Acheson is in for new trouble with Congress, especially with the appropriations committees, on the Atlantic pact. . . . The state department has decided not to give Congress too much detailed information on Europe's military needs for fear of a leak to the Soviet Union. Despite statements to the contrary, Acheson already has all the military information from European powers, but wants a blank check from Congress — for security reasons.

Exit From Austria — The western allies will steal a march on the Russians by proposing the withdrawal of virtually all occupation forces from Austria. British, French and American diplomats in London have agreed to suggest that their troops — and the Russians — be evacuated from Austria except for a token army in Vienna. The plan was decided upon because the Austrian government convinced the allies there is no chance of a Communist coup overturning the present pro-western regime. The plan will be made publicly to the Russians as soon as the present conference on an Austrian treaty ends in failure — as seems certain shortly.

U. S. Meat Plants in Jeopardy

President Juan D. Peron of Argentina is quietly laying plans for the first major use of the extensive new powers granted him under the rewritten constitution — seizure of the huge foreign-owned meat-packing industry. These are largely British and American plants.

This scheme, prompted by the belief in Buenos Aires government circles that a third world war is imminent, will give the Peron regime complete control of the nation's most lucrative single enterprise.

Argentina's half dozen large, modern packing plants, belonging to U. S. and British interests, will be expropriated through a decree declaring such action "essential to the national welfare." The new constitution, drawn and ratified last month by an all-Peronist assembly, gives the chief executive this right.

Now scheduled for promulgation July 17, Argentine independence day, the decree may be issued earlier if international tension increases sharply. The Peron administration has already set the prices and controls the sale of all livestock offered for slaughter.

Incidentally, the man who is preparing this measure is Jose M. Figuerola, onetime chief brain-truster to Primo de Rivera, Spanish dictator two decades ago.

Spanish-Venezuelan Dictators

When the Venezuelan military dictatorship which overthrew popular Pres. Romulo Gallegos four months ago, recently announced renewal of full diplomatic relations with Franco Spain, it did not say anything about an interesting secret agreement reached between the two totalitarian regimes.

By the terms of this private accord, the Franco embassy staff in Caracas will include two special "security" attaches, whose full-time job will be to train a Falange-style secret police force, which the Venezuelan dictators have decided they need to cope with widespread opposition.

Franco's price for this "technical aid" is a free hand for his "cultural" attache, who will have a fat budget and plenty of propaganda material with which to curry favor for Spanish Fascism. With the military dictatorship in Argentina and Peru already cooperating cordially, the Spanish generalissimo feels that Venezuela now offers a fine chance for a third strategic beachhead in America.

Central College Choir Here Sunday Morning

The 40-voice a cappella choir from Central college, Fayette, will give a concert at the Fifth Street Methodist church, Fifth street and Osage avenue, at 10:30 o'clock Sunday morning sponsored by the Wesley Fellowship class, of which Seigel Woodard is president.

The choir which is directed by Prof. Luther T. Spavde, is on tour from April 24 to May 7 in northern Missouri, traveling by chartered bus and will give 20 concerts. Members of the choir will be dinner guests of families of the church Sunday noon.

The repertoire, from which the programs will be chosen, includes four groups, the first of which is Bach and pre-Bach sacred music; the second is all-Russian sacred music; modern music, mostly American, will be featured in the third grouping and Negro spirituals and secular music in the fourth.

Among the outstanding soloists are Miss Eileen Saeger of St. Louis, soprano, who will sing "All Through the Night," arranged by Lukin, director of the Northwestern university a cappellaa choir and Charles Magruder, Shelbina, who will sing the perennial favorite "Danny Boy," arranged by Professor Spavde. They will be featured on alternate concerts.

A Central college senior, Everett Powell, Savannah, Mo., will give readings on the program and on the day concerts Miss Charlotte Livermore, Shelbina and Mark Barton, Brunswick, will be featured in a flute duet.

Miss Lucille Foster, Palmyra, contralto soloist, accompanied by a violin obligato played by Talmadge Smith, St. Louis, will sing "Cavetina" by Raff, appearing with the male double quartet.

ROGER THE LODGER

By Elizabeth R. Roberts

COPYRIGHT BY GREENBERG, PUBLISHER DISTRIBUTED BY NEA SERVICE, INC.

THE STORY: Mr. and Mrs. Roberts take in problems with their lodgers when they attempt to relieve the wartime housing shortage in Great Falls, Mont. Roger, who uses the Roberts' possessions as if they were his own, is a big problem, but recently Captain Dick Morgan, his wife Betty and their baby, who live in the maid's basement apartment, have created a problem with their assortment of baby sitters.

• • •

XXIII

I ASKED Betty to instruct her sitters to stay out of my part of the house. Betty sighed, said she'd get a new girl. The implication was that none who had worked for her—and me—would be willing to return to the job. She hinted that possibly I'd find it more to my liking to sit with the baby myself.

"I'd love to," I agreed, "when I'm home, anyway. But I can't make any promises to stay home, because sometimes I change my plans on the spur of the moment. I've got to be free to do that," I said, annoyed at being on the defensive. "But when I'm settled for the night, or lashed to the washing machine, I'll be delighted to take care of Caroline."

Betty got a new girl. She didn't tat, and she didn't have dancing parties. But she must have had a tapeworm. The refrigerator door banged on the hour and on the half hour like a faithful old clock. The sixth or so time it banged, I couldn't control myself. I took off for the kitchen, my kitchen. Standing by the sink, leaning over it so the juice wouldn't run down her front, was the sitter, eating a slice of watermelon.

I opened and shut my mouth a few times, priming the pump, before any words came. "Why are you eating out of my refrigerator?" I asked.

"I'm hungry," she replied accusingly.

"Didn't Mrs. Morgan tell you what to have for your lunch?"

"Sure. I ate that."

"This is my icebox. You're not supposed to be in my kitchen at all," I snapped.

"There's nothing left downstairs to eat," she snapped back.

• • •

I ASKED Betty to explain to her sitters that they mustn't use my kitchen nor help themselves to my food.

"Oh, dear," she cried. "I don't believe I'll ever be able to find a sitter to suit you. I guess I'll just have to stay home all the time myself." She looked at me as though I were deliberately making trouble for her.

"Surely there must be someone you can make understand that this is a two-family house now and that our half is not for her to make use of."

"Well, I'll try," Betty said, "but I'm about out of names."

She found one more girl to put up with me—a child of about 13. She arrived alone, but within a matter of minutes had spirited three little companions into the basement. I saw them slink up the garden walk, piping all the windows on that side of the house, but though they looked cautiously, they did not see me behind a Venetian blind. They tip-toed down the basement stairs, quiet as mice.

The house began to rock on its foundation. I allowed four or five tremors to pass unnoted and then proceeded to the basement. The children were making so much noise they didn't hear me as I called to them, and when I didn't find them in the laundry or sitting room, I continued to the bedroom where I discovered them all in the closet. They screamed at my unannounced appearance.

"Girls, what are you up to?" I asked.

They giggled. One was clutching a large book in her arms. I looked at it. It was Betty's scrapbook.

"Where did you get this?" I asked.

"Off the top shelf," one answered.

I looked at the height of the shelf and the size of the girls and wondered aloud how they had got the book down.

"Oh, we've been jumping for it. Mazie," indicating a wiry child, "jumped the highest. She reached it."

Leaving out the ethics of their helping themselves to things put up on top shelves, I suggested they might have got it more easily and more quietly by standing on a chair.

"Oh, jumping's more fun!" they chorused.

• • •

ON the days that Betty did stay home and take care of the Little Character herself, she had groups of other young mothers and their children to keep her company. From every nook and cranny they came—rooms over grocery stores, shack houses in backyards, hotels downtown. Often they were wheeling baby carriages piled with lap robes, pillows, books, sun-tan oil, bottles, diapers, and, of course, the baby. It was a pleasant sight to look out on: a large circle of young mothers lying around sunning themselves, smoking, drinking cokes, occasionally turning a baby over to brown on the other side or moving it out of the sun altogether, or changing it, or giving it a bottle. It made our garden seem useful and worth the effort to keep it in order.

I never had time to sit in it; it was as much as I could manage to mow the lawn. I never decided whether Rob was too heavy for such light work, or vice versa, or just allergic to work, period. He traded on the theory that outside work was gardeners' work, and if there weren't gardeners to be had, it wasn't his fault and he couldn't be expected to take a ball of clay in his hands and create one. Snow shovelers ditto. Each time I manned the lawn mower or the snow shovel, he followed me around, moving from window to window inside the house, tapping with his finger to get my attention; and when I looked up, he would shake his head dolefully and wig-wag me not to do it, that that work was too hard for me.

Well, as I said before, it was gratifying to see the nicely mowed lawn being appreciated.

House Defers Action on War II Bonus

Retailers of Luxury Items Object to Taxes

JEFFERSON CITY, April 21—(AP)—A House committee deferred action last night on a proposal to pay a bonus of up to $500 to World War II veterans.

Retailers of luxury items complained that the additional ten per cent tax slated for their merchandise would drive them out of business and would affect a lot of veterans engaged in the business.

Jewelers, furriers, luggage makers, merchants of sporting goods and others said it would drive their customers to adjoining states, force them to quit operating and deprive Missouri of a sales tax revenue too.

Objections

Veterans who work in those businesses said they'd either suffer a cut in salary or commissions or get fired. They'd rather have job security, they said, than a bonus. Most of them said the bonus should at least be deferred for ten years or more. Some of them said they didn't want a bonus. One told the committee:

"The only thing I wanted out of the service is just that—out of the service."

But the constitutional amendments committee did clear its files of a lot of other business. The committee:

Approved a proposal to "unratify" last year's ratification of an amendment to the federal constitution to limit the president's terms in office to two.

Ready for House Action

Last year's legislature, which ratified the amendment proposal, was Republican. This year's is controlled by the Democrats. The resolution now is ready for House action. Rep. Clarence Cannon (D) of Missouri is said to have felt the current action is without a precedent and probably won't work.

Approved a suggested change in Missouri's constitution so all lenders won't be bound by the same interest law. Legislators blame the 1945 constitution for their four-year long difficulty in passing an interest law which will work for all lenders.

Turned Down School Plan

Rejected a proposal to abandon the present practice of allotting one-third of the state's general revenue to public schools. In its place each school district would have been given $100 a year for each pupil in average daily attendance.

Rejected a proposal to wipe out the state tax on intangible personal property.

Approved a proposal to permit the state treasurer to invest state funds in interest bearing government bonds.

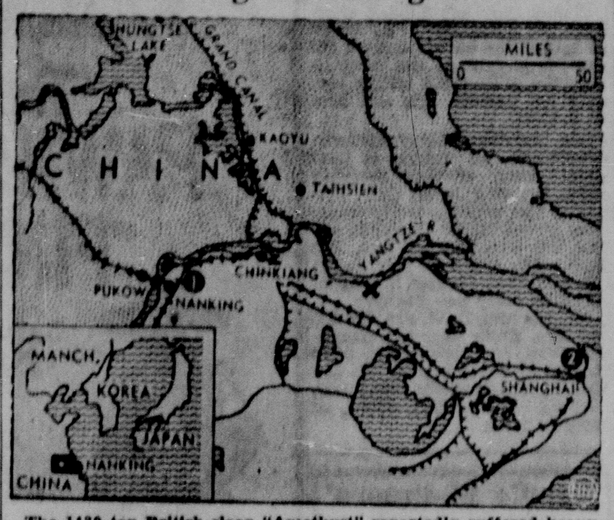
Warfare Along The Yangtze



The 1430-ton British sloop "Amethyst" reportedly suffered heavy casualties and was forced aground in the Yangtze river at a spot (X) about 80 miles east of Nanking (1), by the fire of shore artillery presumed to be Communist. The destroyer "Consort" and the frigate "Black Swan" exchanged gunfire with the Communists. Communist forces control the north bank of the river and at last reports were said to have made several crossings. (NEA TELEPHOTO)

To Claim Share Beery Estate

LOS ANGELES, April 21.—(AP)—Mrs. Gloria Schumm, 32-year-old movie bit player, will fight for a share of Wallace Beery's $2,000,000 estate for her 14-months-old son, who, she claims the late actor fathered.

In his will, filed yesterday for probate, the veteran actor declared:

"Johan Richard Wallace Schumm is not my issue, and I declare that under no circumstances is he to inherit any portion of my estate or to receive any gift."

Beery died last Friday at the age of 64. When he signed his will last March 22, his attorneys were negotiating for a $20,000 compromise settlement with Mrs. Schumm which would include a court decree declaring he was not the father of her child.

Within half an hour after Beery's will was filed for probate, Mrs. Schumm's attorney obtained her court appointment as her son's guardian for the purpose of suing for a share of the actor's estate.

His petition named Beery as the child's father. But the actor declared in his will: "I have no children, the issue of any marriage or otherwise."

Bill to Increase Old Age Pension Rolls

JEFFERSON CITY, April 21.—(AP)—Old age pension rolls would be increased by $14,000 under a bill recommended to the Missouri house today for passage.

Proctor Carter, director of the division of welfare, gave these figures to the house social security committee at its hearing last night.

The bill, by Rep. John L. Sando (D) of Dunklin county, now is ready for action on the house floor. A similar bill is in a senate committee.

WASHINGTON, April 21—(AP)—The armed forces' new policy on the treatment of Negroes requires that when qualified, they shall be assigned to military duties of any type "without regard to race."

Dr. Polgar answered questions on hypnotism, and told of some of its possible uses in the medical profession. He emphasized that the mind had many powers that are never used because of their subconscious nature, and that they are not supernatural or spiritualistic.

Admits Brutal Sex Slaying

EAST LANSING, Mich., April 21—(AP)—An unemotional, freckle-faced youth today admitted the brutal sex slaying of his tiny 6-year old playmate, State Police Commissioner Donald S. Leonard, said.

The youth, Theodore Hilles, an undersized 19-year old, was picked up on highway M-36 about a mile and a half west of Pinckney, Mich., at 10:45 a. m.

He was captured only nine hours after George (Peanuts) Counter was beaten and strangled in the basement of a hotel garage.

The child's nude charred body was found by police early today on an ash pile in the garage. Police said the slayer had attempted to shove it into a furnace.

Leonard said Hilles "confessed to the whole thing" when brought to state police headquarters here.

"This apparently was a sex deal," Leonard said.

State troopers Wallace Teddy and John Mahon of the Brighton Post arrested Hilles, who surrendered without a struggle. The officers said he refused to give his name. They identified him by cards in his wallet.

Health Plan Public Friday

WASHINGTON, April 21.—(AP)—President Truman will send to congress tomorrow his plan for a national health program, including compulsory government health insurance.

Press Secretary Charles G. Ross told reporters today the plan will be detailed in a 3,000 to 3,500 word message asking for passage of necessary legislation.

Senator Elbert Thomas (D-Utah), chairman of the Senate labor committee, already has promised quick hearings on the program. But at the same time he said there is "slight chance" of the bill being passed at this session of congress.

Senators opposed to Mr. Truman's ideas of compulsory health insurance already have advanced two other plans. Both are based primarily on federal aid to states for hospital construction and for medical care to those unable to pay for it themselves.

A fireman sighted the boy floating past and grabbed his legs until the policeman could bring him to safety.

Gambling Raids In Kansas City

KANSAS CITY, Mo., April 21—(AP)—Police Capt. William H. Tobener said the "principal turn-in spot for Kansas City's big-time policy racket" was raided yesterday.

Gambling charges were filed against three men and $2,077.95 was seized.

Tobener said 21 policy "turn-in sheets" were found in the raid on two rooms of a hotel at 12th and Troost.

The men arrested were John E. McBride, 47, Louis Henry Shaeffer, 34, and Thomas Joseph Tralle, 23. They were released under $100 bond each.

Police said McBride was arrested 28 times and convicted nine times from 1930 to 1943, mostly on gambling charges, while Shaeffer's record shows 27 arrests and 15 convictions, chiefly on gambling charges, from 1934 to 1943.

Charges Filed Against Four

Four youths were charged today with committing a statutory offense involving an eighteen year old school teacher about midnight Wednesday. The offense took place southeast of Sedalia near a school house, not identified.

The four are: William "Bill" Williams 20, RFD No. 5, Sedalia; Vernon Sutherlin, 19, 1824 East Ninth street; E. H. "Ed" Schlotzhouer, 20, Smithton, and Ivan L. Harsch, 18, RFD, Smithton. Williams and Sutherlin both furnished bonds of $3,000 each in the Magistrate court of W. M. Ilgenfritz this morning. The other two are being detained in the county jail.

Williams, according to the police, told this version of the affair, he drove to the home of the girl and asked her to go with him to meet Schlotzhouer, with whom she was supposed to have a date. They drove around town and out into the country where the girl got out of the car and ran from them. He and Schlotzhauer then drove back to tewn, met Sutherlin and Harsch and drove back to the country where they found the girl. He said she got into the car. The girl however, told the officers she was forced back into the car, after which, she claims, all four of the men assaulted her. Later, she said she jumped out of the car at East View Tavern just east of Sedalia. Billy Kain, who was there, picked her up and took her to the police station. At police headquarters she told her story to Prosecuting Attorney William F. Brown.

Suspect Takes Police Car

ST. LOUIS, April 21.—(AP)—A police car was stolen today from Officer Howard Wilkerson of suburban Pasadena park—by a man he had arrested a few minutes earlier on suspicion of automobile theft.

The policeman made the mistake of placing the suspect in the front seat and then walking behind the machine to get to the driver's side. When Wilkerson got there, the suspect swung at him with a wrench and then drove away.

Wilkerson recovered from his surprise in time to fire two shots at the rapidly disappearing police car. It later was found abandoned.

Rookie Makes Good Record In Two Days

Johnny Groth Hits Homers For Detroit To Defeat Chicago

By Jack Hand
(Associated Press Sports Writer)

Johnny Groth looks like the hottest rookie to hit the majors since Joe DiMaggio, Ted Williams and Stan Musial.

Sure, it's too early to tell. Two days don't make a season or a career. But what a two days this 22-year-old Detroit freshman had.

Three home runs, five hits and seven runs batted in. That's a flashy showing that needs take a back seat to nobody.

Groth exploded a chorus of hurrahs Tuesday with two homers off Chicago's Al Gettel. That overshadowed Hal Newhouser's fine three-hitter.

Yesterday he almost blotted out Virgil Trucks' four-hitter with a grand slam homer that gave Detroit a 5-2 edge over the White Sox.

Randy Gumpert, the ex-Yankee, held a 2-1 lead in the last of the eighth when he lost his stuff. A walk to Aaron Robinson loaded the bases. Gumpert threw two wide pitches to Groth before he got one over. Groth hit it 380 feet into the left centerfield stands to clean the bases. Earlier Groth drove in a run with a double.

Second Victory

An oldtimer did the honors for the New York Yankees in their 3-0 second straight win oer Washington. Tommy Henrich, one of the few genuine Yanks still able to play, snapped a scoreless duel between Vic Raschi and Paul Calvert with a fourth-inning homer. It was his second of the year, his first accounting for the Yanks' opening day success.

Joe McCarthy's Boston Red Sox were beaten by the Philadelphia A's for the second straight day, 3-2 in 10 innings.

Cleveland knocked out three pitchers in thumping the St. Louis Browns, 7-3. It was the first victory for the world champs with Bob Lemon, a 20-game winner in '48, going all the way despite homers by Dick Kokos and rookie Jack Graham. Karl Drews was the loser.

Braves Defeat Phils

Puddin'head Jones, the Philadelphia Phillies rookie hot shot, tied a modern major league record with four doubles, but could not keep the Phils from losing to the Boston Braves, 6-5. Bill Nicholson of the Phils and Earl Torgeson of the Braves homered in a free-hitting contest that saw reliefer Nels Potter take his second win of the season. Jim Konstanty, the Phils' new mopper-upper, lost.

The speedy Brooklyn Dodgers walked to victory against the New York Giants, 6-2. Loser Sheldon Jones gave only one hit before he was replaced in the fourth but he walked seven and wild pitched twice. Despite a home run ball to Sid Gordon, Ralph Branca was in charge all the way, scattering four Giant hits.

Pittsburgh Shutout

Top National league pitching effort came from Chicago's Bob Rush, the 23-year-old sophomore, who shut out Pittsburgh, 4-0. Murry Dickson, the ex-Cardinal whose sale to the Pirates prompted such an uproar from Manager Eddie Dyer and his players, was nicked for all the runs in his six-inning stay.

St. Louis and Cincinnati were not scheduled.

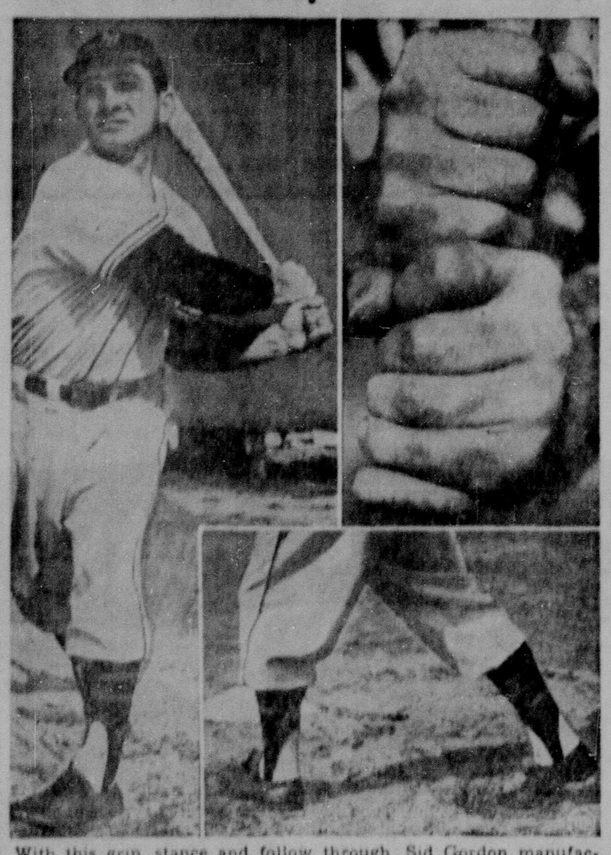
The Man, the Grip and the Stance



With this grip, stance and follow through, Sid Gordon manufactured extra base hits batting close to .500 in exhibition games. The Giants' third baseman opened his stance a bit to lessen the danger of hitting into double plays. He is no speed merchant, but hit 30 home runs last season to be fourth in the balloting for the National League's most valuable player.

Indians Defeat Kansas City 5-1

By the Associated Press

Five home runs rattled off the fences in Toledo's Swayne field yesterday as the Mudhens won a 5 to 4 bat-fest from Milwaukee. The victory gave Toledo a two-game sweep of their series with the Brewers.

In night games, Louisville and Indianapolis kept pace with Toledo, as the Colonels defeated Minneapolis 6 to 4, and the Indians tripped up Kansas City 5 to 1. In the American Association opener at Columbus, St. Paul edged the Red Birds 4 to 3 before 13,250 fans.

Russ Peters' seventh-inning homer and Jim Walsh's tight pitching gave Indianapolis' Indians their second straight win over Kansas City. Walsh gave up eight hits, but he issued no walks and struck out 10, five of them with runners on base.

Many Start Careers With Muskogee Reds

Players Drew Out Of St. Louis Browns' Camp at Pine Bluff

By Frank S. Whitley
(Daily Phoenix Sports Editor)

MUSKOGEE, Okla., April 21—(AP)—Manager Emmett (Heinie) Mueller will put a lot of faith in second year men moving up the ladder, even though the club will carry the limit of five veterans in Muskogee's bid for the Western Association pennant.

The new Reds pilot, who replaces Ray Baker as playing manager, will have six holdovers from the team that finished the 1948 race 49 percentage points out of fourth place.

Two pitchers, Lefty Larry Doyle (1-4) and Ed Carl (5-4) are back from last season along with Jack McQuillon, who led the league in stolen bases; infielders Howard (Red) Wooster, second baseman and Bob Falk, shortstop and catcher Dudley Carson.

Second Year Men

Second year men up from Class D or playing another season in Class C are pitchers Jim Ketcher, 22-8 at St. Augustine, Fla.; Bob Norden, 6-4 at Mayfield, Ky.; Nack Hyde, 0-2 at Muskogee and 3-2 at Ada, Okla.; Ed Lubanski, 23-5 at Wausau of the Wisconsin state league, and Roger Grunwald, 12-5 at Pittsburgh, Kas.

Tom Roberson, a 19-year-old up from Wausau, will be the opening catcher. Infielders among the second year men are first baseman Harvey Christensen, who throws and bats from either side and third baseman Pete Konyar, from Belleville of the Illinois State league.

Outfielders

Second year outfielders are Ed Buoynski, from Gloversville, N. Y., and Danny Kanter, from Pittsburg, Kas.

Red Simpson, a righthander with a 15-8 mark at Pittsburgh and and 12-6 at Chanute, Kas., in 1947, will be in his third season.

Beginning their careers with the Reds are pitchers Bill Lingquist, formerly of Western Reserve university, and Eldred Pudney, a 20-year-old from Applegate, Mich.

"I have a fine bunch of boys who are aggressive and want to play ball," Mueller said. "I'm well satisfied with the players I drew out of the St. Louis Brown's spring camp at Pine Bluff. We can not win the pennant, but we'll be in there hustling."

Ban Johnson Club Practice

Sedalia Ban Johnson ball club will practice this evening at Liberty park. Practice starting at 5:30 o'clock. All boys between 17 and 21 are urged to attend.

Last Sunday a turn out of about 25 boys furnished a inter-squad game which showed that the "Chiefs" might well have a stronger club than that of last season. Even the strong wind that hampered hitting couldn't hold back some long drives in batting practice and the mid season form of some of the infielders. Ralph Falls and Larry Vilmer, the keystone combination of the Legion team of last year, will furnish a strengthening in the infield as they become rookies in the Ban Johnson League.

Manager Hawley as well as Coach Nichols, Jessy and Rodgers, seemed quite pleased in the turn out of the practice and hope that any boy within the twenty-five mile radius will be on hand at future practices.

Feller Pulled A Muscle In Shoulder

ST. LOUIS, April 20—(AP)—Bob Feller, the Cleveland Indians' high-salaried pitcher, has a pulled muscle in his right shoulder, but only time will tell how serious the injury really is.

The veteran righthander was ordered to give the arm "a week of absolute rest." Dr. Robert F. Hyland, noted athletic surgeon who examined Feller's arm today, said he would be out of action for at least a week.

Mildred Burke Wins Her Match

Bobby Bruns, the Chicago wrestling sailor with the assistance of Ed "Strangler" Lewis, tamed "King Kong" Kashey, Compton, California, Wednesday night, which gave the match to Bruns. Kashey made a mistake in taking a swing at Lewis who displayed his ability of headlocks and rough playing too.

Mildred Burke, Los Angeles, California, holder of the world's championship among women wrestlers, had a rough time with Mae Weston of Columbus, Ohio, but she won two straight falls and her title wasn't endangered in her Sedalia showing.

The opening match was won by Dean Detton of Los Angeles, who beat Frank Marconi of Dayton, O., in 11 minutes and 58 seconds. After a wrestling tough time the two locked arms and legs with Ditton coming out with a reverse inside toe hold and forced Marconi to give up.

Miss Burke and Miss Weston were next on the card. The first fall went into a slug-fest and after tossing Miss Weston across the ring several times using an arm twist and bouncing off the ropes, she smothered her. Miss Burke won the fall in 12 minutes and 20 seconds. Her second fall came after 10 minutes and 45 seconds when Miss Burke succeeded in getting her speciality hold the alligator cluth.

King Kong won the first fall in his match with Bruns using a standing half crab. The time of the fall was 13 minutes and four seconds. Bruns succeeded in getting an arm scissors on King Kong which he held for more than eight minutes and after the two broke succeeded in getting another like hold and rolled around the ring until King Kong gave up in 11 minutes and 46 seconds.

In the final fall, King Kong went into a rage when Lewis stopped him from knocking bruns off the ring after he had tossed the Chicagoian out of the ring. His mistake was in taking a swing at Lewis who immediately applied a head lock and tossed him across the ring. Bruns jumped into the ring and used a double drop kick three times, body smothered him to win in nine minutes and 55 seconds.

Sports Roundup

By Hugh Fullerton, Jr.

NEW YORK, April 21—(AP)—You'd hardly recognize the Washington Senators these days except by the spot the experts are awarding them in the pre-season predictions . . . and even that is okay with Manager Joe Kuhel, he says. . . . Joe professes to approve those seventh an deighth place forecasts because they'll make him look good if he can move the club up a couple of notches. . . . For anyone who hasn't seen the club for a couple of years, the only familiar faces are Al Evans, Eddie Yost, Buddy Lewis and, of course, a few pitchers. . . . Lewis, you remember, retired last year but Kuhel says Buddy isn't having trouble making a comeback because "he's a natural hitter." . . . As for the pitchers, the less said about them now the better, but they're recovering from various ailments. . . . Right now Joe is high on a lean, bespectacled flinger named Paul Calvert because he looked so good in the Cuban league last winter. . . . Maybe that explains those predictions.

Hair-Raising Tail

Near East, a three-year-old filly scheduled to race at Jamaica Saturday, likely will be decked out with a "tail toupee" when she goes to the post. . . . Seems that because of an infection, she lost her own hirsute appendage and Trainer Jimmy Hastie had a false tail made so she wouldn't look so strange. . . . Now if Jimmy would fix up a nose falsie, the nag might be worth a two-buck bet.

Sports Before Your Eyes

Alan Thompson, Iowa State's star backstroke swimmer, has been awarded the atomic energy commission's pre-doctoral research fellowship in the biological sciences. Good thing he doesn't have to take those heavy words into the pool — that is, unless he swims in heavy water. . . . After Luke Appling looked over the youthful White Sox aspirants in training camp, he remarked: "I'm glad I won't be 40 for four or five more years."

Cleaning The Cuff

When Horace Rawlings won the first "official" U. S. open golf championship in 1895, his prize was $200 — and the committee too back $50 to have a medal struck off. . . . This year's winner probably will give his caddy more than that.

13,000 Women Will Converge in Bowling

COLUMBUS, O., April 21—(AP)—Thirteen thousand women bowlers will converge on Columbus in the next 41 days. And more than half of them will leave with prize money.

That's the nice part about knocking down pins in the women's international bowling congress. They've got a pretty fair chance of coming up with a prize—even if it's only one of the small ones.

Maybe that's why a record number of female keglers will participate in the annual classic starting today.

The WIBC secretary says she thinks it's a good idea to pass those prizes around among as many women keglers as possible.

"We stretch out the prize list," Mrs. Emma Phaler said, "and we have more women go home happy. Women aren't like the men in bowling. Our members want to have a prize — even if it's only for $3."

Browns Lose To Indians; Cardinals Idle

By the Associated Press

The Browns were long on home runs, but not long enough, and too short in the other departments against Cleveland at St. Louis yesterday and so the Indians won 7 to 3 and evened their opening series.

They meet again today, with Dick Starr on the mound for St. Louis against Steve Gromek for Cleveland. Starr is new with the Browns, who bought him last year in a deal with the New York Yankees. Gromek had a 9-3 record last season.

The Cardinals, who were idle yesterday, meet the Reds at Cincinnati in hopes of squaring matters after losing the opener on Tuesday. It will be George Munger against Johnny Van Der Meer.

Cleveland's Bob Lemon had the Browns buffaloed until the sixth inning yesterday, when Dick Kokfos blasted a homer but it left the St. Louis men trailing 4 to 1. Jack Graham, the Brownie rookie from the Pacific Coast league, connected for a four-base blow in the eighth with a man on.

Leading 4 to 3 in the ninth, the Indians sewed the game up tighter with a three-run storm of hits.

Karl Drews was the starting St Louis pitcher. He gave up seven hits and four runs before retiring under fire in the fifth. Joe Ostrowski held the Indians to one hit for three innings, but he went out for a pinch hitter and Irving Medlinger and Bob Malloy finished.

MEN ENJOYED C&G BEFORE BROADWAY HAD LIGHTS

The Great White Way was born when Broadway's first electric lights were turned on in 1880.

MEN TOASTED the opening of the Great White Way in mellow Chapin & Gore Kentucky bourbon. At that time, C&G was an established favorite with men who enjoyed its smooth, distinctive flavor, its hearty 93 proof.

Ask for C&G the next time. Reasonable in price, it is unsurpassed in quality. If you prefer bourbon, you'll insist on C&G.

DRAWS OFF EXCESS STOMACH ACID LIKE A GENTLE MAGNET

Lurin works on a principle that's radically opposed to other types of antacids you have tried. It doesn't kick up a violent chemical reaction in your stomach. *Lurin acts like a gentle magnet.* It attracts — absorbs — the excess acid, and renders that acid inactive and inert. Then bloating and sourness disappear!

Lurin gives relief that is prompt and positive, and the principle on which Lurin acts is so soothing — it is widely used in the treatment of stomach ulcers due to excess stomach acid. Lurin's pleasant-tasting, too!

Lorgnette Makes a Lady Out of 'Biddy' the Hen

"I MIGHT BE Garbo in these dark glasses," says Biddy.

By Ann Pearson
AP Newsfeatures

WHITE BEAR LAKE, Minn.—A look at the world through rose colored glasses is making a lady out of little "biddy," the hen.

Hens in many egg producing flocks in the nation actually are wearing spectacles that give them the look of a dowager.

The glasses have red lenses that tend to keep young laying hens quiet and even tempered, poultry men say. They also prevent them from performing acts of cannibalism of committing mayhem on one another.

All it takes to start a barnyard ruckus is a vicious peck from the beak of one hen on another. At the sight of blood, several hens will join in the fray. Somebody usually gets hurt badly, if not eaten up.

With eggs still worth as much as a nickel apiece, and a good hen capable of producing one almost every day, poultrymen are interested in stopping the fights.

The red-lensed "specs" give an overall little-red-hen look to all members of the flock. If a hen gets "beaked," the blood is not discernible to her sisters.

Jess Munson, manager of Pine Tree farms near White Bear Lake, has several thousand of his 6,000 flock wearing the spectacles. The gadgets have a "nose bridge" that fits over a hen's beak. They're fastened by a small pin which passes through a part of the upper beak. The operation causes the hen no pain or discomfort, Munson explained.

Poultrymen, who refer to the spectacles as "peck guards," have tried many schemes to reduce mortality among flighty chickens and keep them quiet while laying. Red light bulbs, painting poultry house windows red and other methods have been used with varying success, Munson said. In his experience the red glasses have proved the best.

At the end of the second year, the hen, if not ready for the fricassee pot, is relieved of her glasses. By then she has enough sense to stay out of fights.

"NO LONGER SLEEPLESS!"

Changing to Famous Cereal Drink Brings Natural Relief

Can't sleep? . . . Toss and turn?... Get up in the morning feeling more tired than when you went to bed? . . . Then you'll find real encouragement in this letter from a man in Peoria, Illinois:

"Nervousness and sleepless nights were my two reasons for switching to POSTUM—and you can tell the world that drinking POSTUM instead of coffee quieted my nerves and made me sleep better, thus improving my general health."

SCIENTIFIC FACTS: Both coffee and tea contain *caffein*—a drug—a nerves stimulant! So while many people can drink coffee or tea without ill-effect, others suffer nervousness, indigestion, sleepless nights. But POSTUM contains no caffein or other drug—nothing that can possibly cause nervousness, indigestion, sleeplessness!

MAKE THIS TEST: Buy INSTANT POSTUM today—drink POSTUM exclusively for 30 days. See if POSTUM doesn't help you, too, to sleep better, feel better, enjoy life more! . . . INSTANT POSTUM—A Vigorous Drink made from Healthful Wheat and Bran. A Product of General Foods.

Day Nursery Outgrows the Romper Set; Keeps Older Children Off Streets, Too

SCHOOL'S OUT, but their mothers are at work, so these girls do some sketching at Kansas City's grownup "day nursery."

NO LONGER TODDLERS, these boys still go to nursery to work in the hobby shop instead of running streets after school

Pictures and Text
By Mary C. Flynn
NEA Staff Correspondent

KANSAS CITY, Mo.—(NEA)—Boys and girls long out of rompers answer roll call along with toddlers at the Salvation Army's nursery in the west side tenement section on the fringe of Kansas City's downtown shopping district.

Children up to 11 years of age are included in the nursery program "to keep them from running the streets before and after school hours," according to the director Major Frank Evans.

To protect them from possible taunts of "nursery babies" by schoolmates, the older children technically are in the "Day Care" division, while tots attend the Day Nursery.

The school age youngsters' schedule includes a hot noon lunch, afternoon lunch, supervised after-school recreation in the gym or play rooms, crafts training and semi-weekly movies. They are accompanied to and from school by nursery teachers.

Of the current enrollment of 122 children, 33 are over six years old. All are children of widowed or estranged mothers, who must earn their livings away from home in the daytime, or of working mothers and fathers taking courses at nearby training schools.

Sparking the nursery program is amiable, 52-year-old Major Evans. He has done most of the remodeling work on the three-story former church building which houses the nursery. Most of the furnishings, including 70 baby cots, were made by him in his basement workshop.

Nursery Boss Major Frank Evans: New name, "Day Care."

The nursery is operated by the Salvation Army and supported by fees and, mainly, by the Kansas City Community Chest Fund.

The average weekly fee for each child is $3.20. A large percentage pays less, according to the amount set by a trained social worker. The average weekly cost to the nursery per child is $6.83.

Besides Major Evans, the staff includes seven teachers, a dietician, two maids and a janitor. Teachers are college graduates trained in child welfare and guidance work.

A definite need for care must be established before a child will be admitted to the nursery rolls.

With fatherly delight, Major Evans points out that, even after disciplinary reprimands, "the children still love me."

Many of the children, when punished for misconduct, ask for "spankings" rather than miss any phase of the regular schedule. Spankings are out, but punishment comes in the form of denial of a favorite attraction. For the older boys and girls, it's usually the movies.

Lovelace Club Met At Ellis Home

The Lovelace Extension club met in an all day session, April 14th, at the home of Mrs. T. S. Ellis. Nine members and one visitor, Mrs. Will Embree, were present. A contributive dinner was served at the noon hour in traditional Easter style.

After the meeting was called to order by the president, Mrs. Elmer Curtiss, roll call was answered by telling your "favorite childhood book." Plans were made for the demonstration on pasteurization of milk at the next meeting. Gifts were received by the hostess. The next meeting will be held May 12th at the home of Mrs. Elmer Curtis.

Senators Visit Slums, See How The Other Half Lives

By James Marlow

WASHINGTON, April 21—(AP)—"When you ain't got it, you ain't got it," the Negro man said mildly, meaning money. He was leaning against a battered shack a few blocks from the capitol.

He was trying to explain why people lived in the slums of Washington, thousands of people, whites and Negroes, but mostly Negroes. What kind of work did they do? "Mostly ketch as ketch can," the man said.

He was looking at senators, policemen, newspaper reporters and a doctor while raggedy Negro children played around them and hit at one another with sticks.

A Negro girl got up and hobbled off the steps. Her legs were bent with rickets. She had a foolish, happy smile. She might have been 15 or 35. "An imbecile," the doctor told the others quietly.

The group was making a quick tour of the slums of Washington that spread out around the capitol. The slums start within 100 feet of the Senate office building.

Come from Senate Debate

They were being taken around by Senator Paul Douglas, Illinois Democrat. The others in the party were one Democrat, Senator Green of Rhode Island, and these Republican Senators: Morse of Oregan, Ferguson of Michigan, and Baldwin of Connecticut.

They had just come from Senate debate on a bill to provide public housing and wipe out slums in the cities of America. They wanted to see slums first hand in the nation's capitol. . . .

They went into a house where 13 people sleep in three beds in two rooms . . . a man, his wife, nine children, one grandchild, and the man's grandfather . . . no lights except an oil lamp, no heat except a coal stove in the kitchen . . . no running water. The water is in the yard. So is the toilet. The yard is heaped with rubbish.

Couldn't Work

The plasted was off the walls . . . the windows broken . . . the furniture was claptrap junk . . . outside in the yard the grandfather was lying on a bare bedspring, warming himself in the sun. One leg was off at the knee.

With his age and his one leg he couldn't work. He makes no money at all? No. How much does his son make? One buck yesterday, maybe no buck today. He delivers coal when he can.

How did grandfather lose his leg? "T-B of the bone," the old man said.

"An awful lot of people die of tuberculosis in the slums," the doctor told the Senators. "And there's a lot of venereal disease."

The police captain said they found a man frozen to death in one of the outside toilets last winter. . . .

The party went from slum to slum, row after row of them . . . row after row of outside toilets and outside water pipes . . . yards heaped with rubbish . . . .

Bugs, Lice and Everything

I asked many Negro men and women what was the highest pay anyone in their row of houses gat. The highest I heard anyone say was $35 a week, when a man had regular work . . . the rent ran from $12 to $30 a month . . . .

Dirty? Yes, a police sergeant said on the ride back to the bright and shining capitol. Bugs and lice and everything, he said.

"There's some kind of doctor works for the government," the sergeant said. "He makes a study of lice. Catalogues them. He told us any time we found anyone dead in the alley to let him know.

"Two weeks ago we found a man, dead quite a while. We called the government man. He came down. He found 11 new kinds of lice on the man nobody ever heard of before. All brand new kinds, the doctor said."

The sergeant looked thoughtfully at the ancient houses of the slums.

"Just look at them," he said. "If someone with money bought them up, and fixed them, and painted them, and put a big brass knocker on the door, he'd have a real antique."

Club Members Play Several Games

The Hopewell Homemakers club heid its April meeting, April 14, at the home of Mrs. Albert Anderson.

After a contributive dinner was served, a short business meeting was held. The members opened the meeting by repeating the club collect. Roll call was answered by "My Favorite Scripture."

After the meeting adjourned, Mrs. Ben Townsend led the members in playing several games.

The next meeting will be held May 12.

Deny Charges Of Brutality

WASHINGTON, April 20.—(AP)—A court reporter charged—and the chief prosecutor denied—today that brutality and threats were used to get confessions from Germans in the Malmedy massacre case.

The prosecutor, Lt. Col. Burton F. Ellis, acknowledged to senate investigators that candle-lit mock trials were held to get former Nazi storm troopers to talk. And he said evidence of a sort that would not be allowed in a court in America was permitted.

The accusation came from James J. Bailey of Pittsburgh, Pa., who said he was a member of the U. S. Army's confession collecting team until he "could stand it no longer" and quit the job.

Bailey, identifying himself as an official court reporter for 28 years, wrote an unsolicited letter to a Senate armed services subcommittee. That group is investigating the army's handling of the case involving the machine gunning of 160 helpless Americans captured near Malmedy, Belgium, during the Battle of the Bulge in December, 1944.

Ellis, who was in charge of both investigation and prosecution, said he knew of only two cases of mild mistreatment. Both, he testified personally to the committee, were accusations from German prisoners that they had been kicked.

Advance Safety Bill For Passage

JEFFERSON CITY, April 21—A bill that took two days of the Missouri Senate's time finally was advanced Wednesday to position for passage.

Exhausted by the long debate, the Senate then quit work until Monday.

The bill sets up minimum safety standards for theaters. Churches, schools, tent shows, baseball parks and other buildings used only now and then for public amusement would be exempt.

Theaters would have to have permanent seats but those with a capacity of less than 180 persons could have movable chairs. The width of aisles, number of exits and other standards also are set, varying according to the size of the building.

Bill Is Killed To Ban Women

House Refuses To Deny Privilege They Tend Bar

JEFFERSON CITY, April 21—(AP)—It's all right with the House of Representatives for women to tend bar in Missouri.

The House killed a bill Wednesday which would have prohibited women bartenders. Exceptions would have been allowed for the sister or wife of the bar operator.

Rep. Daniel Curran (D) of St. Louis, the author, said he was trying to clean up places that are a detriment to society. Women tend bar, he charged, as come-ons, in an effort to attract male trade. Michigan, California and other states now ban women bartenders, he told the house.

But Rep. Jennie S. Walsh (D) of St. Louis said women should not be discriminated against. She said she had heard of several bars in downtown St. Louis with male bartenders that ought to be cleaned up too.

Vote on the bill was 62 to 41. It takes 78 votes to pass a bill in the House. Curran sponsored the same bill four years ago. It was defeated, too.

Increase For Mileage

The House passed and sent to the Senate two bills to increase mileage allotments for county school superintendents in first and third class counties.

Superintendents in first class counties now receive five cents a mile. In third class counties it's four cents. The bill would have hiked it to seven cents.

Rep. Richard M. Webster (R) of Jasper county, sponsor of the bills, decided to hold over bills applying to second and fourth class county superintendents. The one affecting third class counties squeaked through with just one vote more than the 78 needed.

The House also passed and sent to the Senate a measure to eliminate installment payment of state income taxes. Rep. Cecil Taylor (D) of Shelby county, the author, said it would save the state between $6,500 and $8,000 a year.

Of the 400,000 returns filed annually, he said, only about 25,000 are paid in installments.

Theater Ceiling Co llapses

The acoustic ceiling of a theatre, built last October, in Houma, La., crashed without warning on a startled audience of 100 persons. Thirty-nine persons were injured. Houma is located about 40 miles southwest of New Orleans. (NEA TELEPHOTO)

Hal Boyle Says

By Hal Boyle

NEW YORK, April 21—(AP)—Is television any more than keeping your mouth a-wide and your eyes a-gleam?

I don't know for sure except I've been on the darn thing. That is, I've been on a television program.

Just how to talk to the rest of you who haven't had this adventure I'm not sure. After all, you don't know, do you?

In other words, life has passed you by. And I, like a good fellow, want to tell you what it's like.

I would say there are two ways to meet television — male and female. I am male. That is the downstairs technique. You sit there on a couch until the program starts.

A Different Matter

Ah, but if you are female! That is a different matter. That is the technique above. The lady goes upstairs and gets herself overhauled — as if a simple thing like that would surprise you when she came back down.

But it does surprise you. If it doesn't — you are no gentleman at all. It is like little girls running up the steps and playing Mamma Red Indian. When the girls come hoppity-step down, you just have to mention that Miami sunburn on their faces.

Of course the selfish male — and what male isn't selfish? — May wonder why they don't bother to put an indoor tan on his face. The answer is very simple. Who cares about him anyway?

Some Make Preparations

At the present stage of television the only people who take care to see that they look right on television are those who earn their daily bread that way. And guest ladies. You know guest ladies always want things done right.

And guest men? Well, I was a guest man. There I was — and what was I to say?

They don't tell you that. All of a sudden the lights come on. The lights really come on under television. They come on fast and hard.

And all of a moment there you are with two or three cameras pointed at you waiting for you to say something important. And all you can think is "What will posterity think?"

And posterity isn't even on the program — that is one thing that isn't scheduled by television yet.

Just An Argument

Well, you are between two girls and you are supposed to be talking about a book called "How to be Happy While Single."

And you say you don't think anybody can be ecstatically happy single or any other way. And the lights get hotter and the questions come faster and finally you wind up trying to defend this idea:

"Everybody has to be lonely in this world, but marriage makes it possible for two people who like or respect each other to be less lonely together."

After that I lost all sense of television. I was up to my ears in female argument. Not an unfamiliar position, either, for a man married nigh twelve happy years.

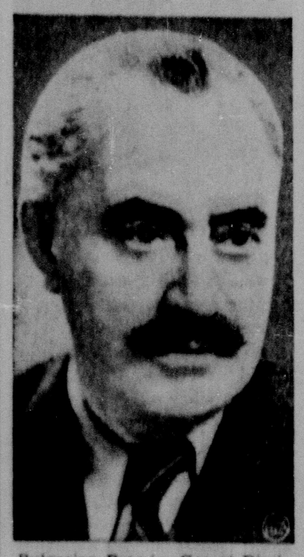
On 'Home Leave'



Bulgarian Premier Georgi Dimitrov, above, who departed for Russia on "home leave," is the source of speculation that he may have fallen out with the Cominform. Probably the No. 1 Communist outside Russia, Dimitrov did not join the general Cominform denunciation of Tito and had been censured in the past for advocating a Balkan federation in the face of Soviet opposition.

Student Held In Mother's Death

ROCKWELL CITY, Ia., April 21—(AP)—A blond high school senior, held in the shotgun slaying of his mother during a quarrel which involved his adolescent romance, said Wednesday, "I'm sorry I done it."

Otherwise, Sheriff George Dahlke reported, Dale Junior Post, 17, of Farnhamville, Ia., was "cool as a cucumber" and showed little remorse.

His mother, Mrs. Frances Post, 48, was found slumped over a sack of groceries in the kitchen of her Farnhamville home.

County Attorney Lewis Hendricks said the youth signed a statement saying he killed his mother "because I was angry at her for not letting me have the keys to the car."

The boy said he wanted to skip school and drive over to see his girl friend.

A period of play in polo is called a chukker and lasts seven and one-half minutes.

Housing Bill Voted By Senate

By 57 to 13 in Approval of Plan After Flare-up In Heated Debate

By Marvin L. Arrowsmith

WASHINGTON, April 21—(AP)—The Senate tonight passed the long-range housing bill providing for a vast slum clearance program and construction of 810,000 public housing units during the next six years.

The measure also calls for a farm housing program and research to cut building costs.

The vote was 57 to 13. The bill now goes to the House.

The vote came shortly before midnight after a long, wrangling session in which tempers frequently exploded. Once Senator Taft (R-Ohio) angrily accused Democrats of making a "deal" with Senator Langer (R-ND) to induce Langer not to launch a filibuster.

Reject Segregation Proposal

Earlier in the day the Senate rejected, 49 to 31, a proposal to bar segregation on the basis of race, creed or color in the renting of public housing.

It was sponsored by Senators Bricker (R-Ohio) and Cain (R-Wash), who also offered unsuccessfully a sheaf of other amendments.

The fight against the Bricker amendment was led by advocates of President Truman's civil rights program. They said they regarded the amendment as a move to kill the housing bill.

On the other hand, those for the amendment said it provided an opportunity for those really in favor of civil rights to demonstrate it.

Several amendments were adopted. Senator Taft won acceptance of one limiting to 200,000 the number of subsidized public housing units that could be built in one year. He said the bill would have permitted 250,000 a year. He expressed concern that completing the program too quickly would "take supplies and labor away from private builders."

Taft, a backer of the bill's major provisions, offered an amendment to strip from it a provision calling for $12,500,000 in grants for the improvements of substandard farms. Taft holds that the farms in question are uneconomic and there is no justification for spending the money on them.

Langer was quickly on his feet, threatening to talk all night against the Taft amendment.

Later, Sen. Maybank (D.-S.C.), chairman of the senate banking committee, spoke to Langer, and soon Langer sat down and let the amendment come to a vote.

Amendment Carried

The Taft amendment was defeated and Langer then moved to double the $12,500,000 fund. His amendment carried.

Taft stormed:

"We all saw the deal made right here on the senate floor." There isn't any question the (banking) committee bought off Mr. Langer with $12,500,000 to shut off his filibuster."

Sen. Neely (D.-W.Va.) told the senate Taft's move to wipe out the fund was typical of the Republican party's attitude toward the farmers.

Sen. Capehart (R.-Ind.) took exception to that. He said only $1,000,000 would be spent on the farms the first year. If that were divided up equally, he said, it would give each of the nation's farmers a total of six cents.

Opera Singer Shot to Death

ATLANTA, April 21.—(AP)—A man tentatively identified as a member of the Metropolitan opera company was shot to death today in a setting like something of the opera itself.

Police Homicide Lieut. M. M. Coppenger said papers on the body identified him as Hans J. K. Garris of New York City. He said other papers bore the name of John Garris.

Garris sang a role in the opera's performance of Otello Monday night.

The opera company itself was en route to Memphis, Tenn., this morning, after ending a three-day series here last night. Police wired Memphis police and special railroad agents to quarantine the train on arrival, and forbid anyone leaving it until a thorough search is made. Coppenger and a detective were ordered to fly to Memphis immediately.

The body was found about 7:45 a. m. in an alley at 305 Marietta street, in the downtown section. It was lying straight in the alley. The legs were crossed at the ankles and hands were held back with the palms turned inward, as though trying to touch the shoulder blades.

The man was in shirt sleeves A single bullet wound was on the left side below the heart.

Coppenger said the man's pocketbook and valuables were in his clothing.

Body of Man is Found in River

MARSHALL, Mo., April 21—(AP)—C. L. Lawless, Saline county coroner, said three men today found the body of a man lodged in pilings in a bend of the Missouri river near here.

The coroner said the body was that of a man about 50 years old and weighing between 225 and 250 pounds. Found on the body were a Swiss watch and a pair of heavy work shoes.

Lawless said he believed the man had been dead about three weeks or a month. The body, he said, bore marks of blows about the head.

The body was found by O. G. Bristow, Sr., his son, O. G. Bristow, Jr., and Francis Hicks, while in a boat.

Secretary of Army Royall Resigned

Belief Expressed That War is Not Now Imminent

WASHINGTON, April 21—(AP)—Army Secretary Kenneth C. Royall, the first man to serve in that position with the unification of the armed forces, resigned today.

President Truman announced acceptance of the resignation at a news conference. In a statement to the President, Royall wrote that he was convinced that "war is not imminent."

Royall's successor has not been chosen. He wrote Mr. Truman in one of two letters of resignation which the White House published that he wanted to return to private life and added:

"My recent personal inspections in the overseas theatres have shown the army everywhere to be in excellent condition and have confirmed my belief that war is not imminent."

Royall, North Carolina lawyer who had the World War II army rank of brigadier general, visited 22 countries in Europe last fall and then made a survey trip to Japan and Korea. He was the last secretary of war before becoming secretary of the army with the unification of the armed services in the new department of defense.

In making his announcement on Royall Mr. Truman said he did not expect many other changes soon but commented that there always will be changes. Then he went on to say that it takes an iron man with an elephant hide to serve the government.

An assisting surgeon, Dr. James E. Walden, completed the operation on Mrs. Mary L. Jackson for the removal of a tumor.

The operation was about half over when Dr. Walden, a Negro physician, noticed Dr. Rosenwald slump. He reached across the operating table and siezed Dr. Rosenwald's wrists. Nurses came to his aid.

The veteran surgeon was carried from the operating room.

Dr. Rosenwald, who had practiced 49 years, died 40 minutes after he started the operation at the Wheatley Provident hospital a hospital for Negroes. He also was a member of the St. Joseph hospital staff. He had had a heart ailment for several years but preferred to continue with his work.

Murder Charge In Slaying Wife

KANSAS CITY, Kas., April 21—(AP)—A woman was slain and her husband charged with first degree murder today. The husband was quoted by authorities as saying an argument over his snoring caused the incident.

County Attorney Harold Harding said he pieced together this story from the statement of the husband, Earl B. Newby, 62, and other members of the family:

Mrs. Newby, 67, was shot twice in the course of a two-hour argument in their rural Wyandotte county home early today. Newby, a sign company operator, said the argument began over his snoring. Other members of the family termed his statement "ridiculous."

Melvin Reavis, son-in-law living in the Newby home with his wife and three children, said he heard a shot and found Mrs. Newby sitting on the bath tub, wounded in the chest. Newby stood by the door with a .38 caliber revolver in his right hand.

Members of the family pleaded with Newby to surrender the gun. Instead, he approached the injured woman and fired again. The shot struck her in the abdomen.

Mrs. Newby, the mother of four children, collapsed in the arms of her two daughters. A son, J. William Newby, arrived as his mother was being placed on a divan.

"Son," she said, "he didn't know what he was doing."

Safety Plaque To Shops Here

Employes of the Missouri Pacific Receive Honor

The 1948 Safety Award plaque of the Missouri Pacific Lines was presented to the employees of the Sedalia new shops Thursday after noon at a special meeting. The presentation was made by L. R. Christy, chief mechanical officer of the Missouri Pacific, of St. Louis, who made a brief talk congratulating the employees on their fine record for 1948.

The Sedalia shops had the best record among the shops groups on the Missouri Pacific with nine reportable injuries and a casualty rate of 3.98. Mr. Christy then presented the plaque to Guy Bailey, superintendent of shops, who accepted it on behalf of the shop employees and responded with a short talk on safety.

He then presented W. H. Bailey superintendent of safety for the Missouri Pacific of St. Louis who made a fine talk to the men. Mr. Bailey sparked his safety talk with bits of humor and some homespun philosphy, which drew many laughs and much applause as he continued to talk on safety driving many vital points home as he pointed out many examples of safety on his trips over the railroad property.

The plaque which is bronze on a walnut back, has the following in raised letters "1948 Safety Award." Presented to the employees of Sedalia shop in recognition of their efficient team play and the consistent regard for the safety of their fellows which enabled them to establish the lowest employee casualty rate for the year 1948. Signed R. C. White chief operating officer."

G. D. Bailey, superintendent of shops, presided at the meeting.

No Peace Feelers From Russia

WASHINGTON, April 21—(AP)—President Truman said today no peace feelers from Soviet Russia have come his way.

That was his comment at a news conference when asked about rumors aboard that Russia is trying to get a resumption of four-power talks on German occupation

A reporter then asked whether, if Russia lifted its blockade of Berlin the United States would consider reopening the talks.

The President said he would cross that bridge when he got to it.

Child Missing Two Days Found Alive

MARION, Tenn., April 21—(AP)—Wanda Moore, 7, missing in the rough Cumberland mountains for two days was found alive and apparently unhurt today.

The little blonde daughter of Miner Joe Moore was found near a mountain pathway less than a mile from her home. Several of the 400-odd searchers had passed nearby but she had been unable to call them. Wanda has a speech defect which keeps her voice from carrying beyond a few feet.

Exhibitions: Not Contests

ST. LOUIS, April 21—(AP)—Effective today wrestling shows will be billed and advertised as exhibitions and not as contests in Missouri.

This was announced by Charles P. Orchard as he was sworn in today as chairman of the new state athletic commission. Orchard said the policy was decided at a meeting of the commission in Jefferson City yesterday.

Other members of the commission are Randall S. Jessee of North Kansas City and P. G. Whightman of Bethany. Orchard lives in suburban Richmond Heights.

House Defers Action on War II Bonus

Retailers of Luxury Items Object to Taxes

JEFFERSON CITY, April 21—(AP)—A House committee deferred action last night on a proposal to pay a bonus of up to $500 to World War II veterans.

Retailers of luxury items complained that the additional ten per cent tax slated for their merchandise would drive them out of business and would affect a lot of veterans engaged in the business.

Jewelers, furriers, luggage makers, merchants of sporting goods and others said it would drive their customers to adjoining states, force them to quit operating and deprive Missouri of a sales tax revenue too.

Objections

Veterans who work in those businesses said they'd either suffer a cut in salary or commissions or get fired. They'd rather have job security, they said, than a bonus. Most of them said the bonus should at least be deferred for ten years or more. Some of them said they didn't want a bonus. One told the committee:

"The only thing I wanted out of the service is just that—out of the service."

But the constitutional amendments committee did clear its files of a lot of other business. The committee:

Approved a proposal to "unratify" last year's ratification of an amendment to the federal constitution to limit the president's terms in office to two.

Ready for House Action

Last year's legislature, which ratified the amendment proposal, was Republican. This year's is controlled by the Democrats. The resolution now is ready for House action. Rep. Clarence Cannon (D) of Missouri is said to have felt the current action is without a precedent and probably won't work.

Approved a suggested change in Missouri's constitution so all lenders won't be bound by the same interest law. Legislators blame the 1945 constitution for their four-year long difficulty in passing an interest law which will work for all lenders.

Turned Down School Plan

Rejected a proposal to abandon the present practice of allotting one-third of the state's general revenue to public schools. In its place each school district would have been given $100 a year for each pupil in average daily attendance.

Rejected a proposal to wipe out the state tax on intangible personal property.

Approved a proposal to permit the state treasurer to invest state funds in interest bearing government bonds.

He was taken to the office of Dr. G. W. Grove, of Knob Noster, by his son, Ed Rittman, where he received medical treatment.

Red Cross is Participating in a Program With Bothwell Hosp.

Pettis County Chapter of the American Red Cross has received the approval of the national organization to cooperate with the Bothwell hospital in setting up a Type Registration blood program. Bothwell hospital has been typing donors since September, 1947, and receiving blood for persons as needed but the plan of this program will give volunteers an opportunity to be typed and called when necessary. The common name for this type of blood program is a Walking Blood Bank. The volunteer is typed and ready to give when called but the blood is not stored in a bank. It is not drawn until needed.

The following letter was received Tuesday:

"Mrs. A. A. Studebaker
"Chairman, Blood Program
"Pettis County Chapter
"American Red Cross
"605 West Broadway
"Sedalia, Missouri

"My Dear Mrs. Studebaker:

"This will confirm the approval of national headquarters for your chapter's participation in a Type Registration Blood Program with the Bothwell hospital acting as sponsoring agency to be responsible for all technical phases of the program.

"In reviewing your plan for operation, Dr. Raymond F. Barnes, director of medical and health services in this area, stated that your plan is the most thoughtfully and carefully drawn up plan of any he has seen. This is a real compliment as Dr. Barnes has examined all plans received from midwestern area chapters and many submitted by chapters from other areas.

"Your chapter is to be congratulated on participating in this service to your community. Please feel free to call upon this office for any assistance we can offer in recruiting donors.

"Sincerely yours,
"(Miss) Amy Van Hoozer,
"Correspondent, Chap. Service."
cc—Executive Secretary.

The plan the letter refers to is as follows:

Registrations will be taken at the Red Cross office. Call 618 give your name, address and telephone number and when the labratory can type you a member of the Red Cross Motor Corps will call for you and take you to the hospital. If your type is needed at that time you may donate then. If not your type will be placed on file and your call will come later. The hospital and the Red Cross hope to have three hundred names on file within a month. Won't you call now and make your appointment for a motor corps call?

Huge Sum In Plan To Rearm

Acheson Lays it Before Senate Group to Help Nations in Pact

WASHINGTON, April 21 (AP) — Secretary of State Acheson laid before the Senate foreign relations committee today a program to spend about $1,130,000,000 in the next year to help re-arm North Atlantic act nations.

In addition, arms would be furnished to other nations to bring the total estimated foreign arms outlay to $1,450,000,000 for the year beginning July 1.

Chairman Connally (D-Tex), who announced the program after a five hour closed committee meeting, said the overall program includes aid for Greece and Turkey.

The bulk of the money would go to strengthen European nations which joined in the Atlantic treaty now awaiting ratification. It proclaims their intentions to act in mutual defense in case of attack.

Meanwhile, President Truman told a news conference that no peace feelers from Russia have come his way. This was his reply to a question about recurrent rumors that Soviet overtures to resume four-power talks on Germany are about to be made.

To Strengthen Defenses

The state department moved on a broad front to bolster diplomatic and military defenses against Communism in trouble spots abroad.

These were highlight developments in the capital:

The department assailed the "World Peace Conference" in Paris as another in a series of Communist moves "to make people think that the Soviet Union alone favors peace."

2. Top state department officials pressed new consultations with the British and French foreign offices on what to do if the western Germans reject the three-power proposals for a separate west German government. The talks opened yesterday after the powerful German Socialist Democratic party spurned allied restrictions on a new constitution for the federal state.

3. Three Soviet satellites—Romania, Hungary and Bulgaria—were served notice that this country plans "further appropriate action" to back up its charges they violated their peace treaties by persecuting religious leaders. The state department said the American government shortly will begin consultations with the "other interested signatories of their peace treaties" to determine what should be done jointly.

Hope for Rain To Quench Fires

LITTLE ROCK, April 21—(AP)—The Arkansas forestry division is hoping for rain to smother timber fires that keep cropping up in the Ozark hills.

Assistant State Forester R. M. Henry said late today "if we could get one good rain, I think the danger would be past."

The U. S. weather bureau here forecast showers over the state tonight, but it was anybody's guess whether precipitation would be substantial in the dry forest areas in north Arkansas.

Henry described the situation as "much improved," but 12 fires still burned.

Since early this month, Henry said in excess of 400 fires had been reported. He estimated that 16,000 acres had been burned over.

The major fires have been in Randolph, Sharp, Fulton, Izard and Baxter counties near the Missouri border.

State police have returned from an investigating tour of the fire area, seeking to determine whether any of the fires were incendary.

Forestry officials have said that most of the fires started from a time-honored custom of burning off the underbrush in the spring, but that some of the fires were started with malicious intent.

Kiwanis Club Endorses Park Program

Appealing for continued support of an athletic and physical education program for Sedalia boys and girls, Jack Cunningham spoke before the Sedalia Kiwanis Club in Bothwell Hotel Thursday noon. He was introduced by Roland Luster. Kennie Miller was program chairman.

Mr. Cunningham had with him a framed diagram of the present and proposed Liberty Park improvements, including swimming pool and stadium. During his talk he stressed the value of community playgrounds, the undiminished need of teaching the youths of our city to learn to play young, and live long, and become community assets. He emphasized the part physical training plays in the mental, physical growth of young people.

Resolution Passed

At the conclusion of his talk, the Rev. H. U. Campbell offered a resolution in support of the mayor, city council and park board in developing the park improvement program, which was approved unanimously by the club.

The club received two new members, the Rev. Warren L. Botkin, new rector of Calvary Episcopal church, and Arthur J. Morgan, accountant. The initiatory ceremony was performed by the Rev. Mr. Campbell, assisted by R. C. Hemphill and Edw. Mullaley.

Held on Charge Of Embezzling

WEST PLAINS, Mo., April 21—(AP)—Paul and Harry McGoldrick, former Howell county treasurers charged with embezzlement, were bound over to the June term of the circuit court at their preliminary hearing today.

The action was taken by Magistrate Wesley Esley of Ozark county who was called to preside after the defense had filed an affidavit charging that Magistrate William D Roberts was prejudiced and would not be able to give the two brothers a fair and impartial hearing.

Bond was set at $5,000 each, which the brothers were seeking to obtain late today.

Both are charged with embezzlement of $15,250.95 from the county treasury. Harry McGoldrick, who preceded his brother as treasurer, also is charged with embezzlement of $4,288.15.

The only witnesses at the hearing were two auditors from the state auditors office. They were Elgin Booker, who made a routine audit of the office last fall, and John Williams who audited the books last month at the request of the county court.

Nickel Candy Bar Is Getting Bigger

BOSTON, April 21—(AP)—If you have a sweet tooth, here's good news: The nickel candy bar is getting bigger.

Several makers of popular-price bars are increasing the five-cent confections from seven-eighths of an ounce to a full ounce. In the case of bars with creamy centers an increase in weight from 1⅛ ounces to 1½ ounces has taken place. The change is the result of a declining price of cocoa.

Nanking Appears Doomed—British Ships Damaged And Forty-two Dead

By Seymour Topping

NANKING, Friday, April 22—(AP)—U. S. citizens were urged today by the American embassy to consider quitting Nanking "now" before it becomes a battle ground of the civil war.

The advisory was issued just as the Chinese government acknowledged that Communist troops had crossed the Yangtze at a point east of Nanking where the Reds could cut off rail traffic to Shanghai.

The embattled river front already cuts off use of the Yangtze for such evacuations.

(The state department in Washington reported there are approximately 200 Americans connected with the embassy in various capacities, with another 87 U. S. citizens in Nanking on private business.)

NANKING, April 21—(AP)—The Chinese Communists tonight poured fresh troops into their bridgehead south of the Yangtze river against admittedly ineffective government opposition.

This apparently-doomed national capital could hear artillery fire and see fires across the river on the north bank, where the Reds gained new threatening footholds.

The skies over Nanking roared most of the night with the passage of transport planes, taking government officials to refuges in the south.

Four British warships had been drawn involuntarily into the great battle of the Yangtze. The cruiser London, destroyer Consort and sloops Amethyst and Black Swan all were damaged and had 46 dead from persistent fire by heavy Red artillery.

The Chinese government officially announced that the legislative Yuan and other government branches were moving tonight to Canton and Kweilin and the Island of Formosa, while the defense ministry and the presidential office were going to Shanghai.

It was not disclosed whether acting President Li Tsung-Jen also would flee, but it was believed he might stay on in Nanking a while longer.

Peace Moves Failed

Li's three month effort to negotiate a peaceful settlement of China's long civil war was at an end.

The national defense ministry was in turmoil, but a spokesman conceded the Communists were building up a bridgehead they had established near Tikang (Tichiang) about 80 miles southwest of Nanking. He said elements of three Red armies had been identified there. At normal strength this would be 60,000 men. Other sources said the initial crossings were made by 8,000 to 10,000 troops but that these forces were being built up rapidly and the bridgehead expanded.

A report of another crossing near Wuhu, 50 miles upstream from Nanking, was not immediately confirmed.

Million Fighters

The spokesman said Nationalist troops, boats and planes were attempting to hold back the Communists. However, the Reds have an estimated 1,000,000 veteran fighters in the attack. Against them the government has possibly 500,000 troops and no more than 40 operational fighter planes and a few gunboats.

Official sources in Nanking disclosed that 37 of the 43 U. S. Marine guards at the U. S. embassy were being flown out to Shanghai. It was stated that naval authorities considered it inadvisable to have the Marines in Nanking when the Reds entered because of the possibility of "incidents."

The Marines were originally stationed at the embassy to protect embassy property and American lives in the event of a law-enforcement breakdown during a transition period.

Crap-Shooters Roll A Bakers' Group

PEORIA, Ill., April 21—(AP)—Five crap-shooters rolled a bakers' convention here for a lot of dough last night.

Delegates to the Illinois Bakers' Association's meeting said they lost about $2,000 to the strangers, five of whom were arrested and fined $100 each. Police Magistrate Charlesc Hofield ordered the intruders to leave town.

A "friendly" game in a men's wash room of the convention hotel broke up when one of the bakers got suspicious. The non-delegates grabbed the money and ran.

None of their cash was retrieved, but the bakers had the thrill of taking part in a hectic police chase.

The five men rounded up by police identified themselves as Nelson M. Baxter, 43, of Kansas City, Mo.; Dale H. Talbott, 30, and his brother, Ray E., 22, of Joplin, Mo.; Robert J. Popham, and U. E. McManaman, both of Detroit.

J. J. McGrath Chairman of Savings Bonds

Heads Committee For Pettis County; Names Assistants

Robert E. L. Hill, State Chairman of the Missouri Savings Bonds committee, has announced the appointment of J. J. McGrath, executive vice president of the Sedalia Bank and Trust company as chairman of the Pettis County Savings Bond committee.

Mr. McGrath was active in all of the war loan drives and has participated extensively in all civic and community activities.

Mr. McGrath is widely known in the banking and financial circles, both in Pettis county and the State of Missouri.

Chairman McGrath will be in charge of the "Opportunity Bond Drive" in Pettis county and the campaign will begin May 16 and continue through June 30. He has appointed the following to serve on the committee with him: Joe Reed, Clarence Carter, James E. Norlin, Roy I. Coplen, James E. Harvey, Rev. J. Fred King, Bert O. Hathaway, Bob Overstreet, John Zander, Joseph F. Benson, Paul Hansom, Frank V. Mehl, Miss Lois Fricke, Ed Mullaley, Miss Rosemary Burrowes, Stanton Hudson and Milton J. Hinlein.

To Start Work Soon

Chairman McGrath said the committee immediately would begin plans to assure success in the "Opportunity Drive."

The state quota for the drive is $32,280,000, sales of Series E bonds, only, and while Pettis county's quota has not been announced, Chairman McGrath said it would be comparable to other counties the size of Pettis county, but, whatever it was, he was confident the local citizens would lend their support just as they had in each of the Treasury's undertakings in the past. He said the symbol of the "Opportunity Drive" would be the covered wagon which is so symbolical of the pioneers who sought and found "Independence and Security" one hundred years ago.

Suggests Payroll Plan

Mr. McGrath said he urges all employers in Pettis county, who do not now have the Payroll Savings plan in operation in their companies, to make a special effort to establish it during the "Opportunity Drive" and in companies where the plan is operating, he earnestly solicits the support of these employers to endeavor to have more of their employees to take advantage of this regular and systematic savings method.

Payroll Savings offers employed persons the opportunity to purchase United States Savings Bonds on installment payments. A small deduction is set aside each pay-day for the purpose of purchasing Series E bonds.

The professional and self-employed persons should take advantage of the Bond-a-Month Plan where they bank. Both of these plans will help Pettis county to meet its quota and to establish a more sound economy for our own community and the nation as a whole.

Duo Pianists Here April 26

Richard Johnson (left) and David Milliken (right), duo-pianists, who will appear as guest artist with the Sedalia Symphony Orchestra, Tuesday, April 26, at 8:20 o'clock at Smithton-Cotton Auditorium, with Abe Rosenthal conducting.

During his early childhood Richard Johnson entered the choir of St. Mark's Cathedral in Grand Rapids, Michigan, where he studied voice and piano. Later, he became boy soprano soloist, appeared often in recitals and took leading roles in choir productions of Gilbert and Sullivan operas. During his high school days he studied theory with the director of the Grand Rapids Symphony Orchestra.

David Milliken is a product of New Orleans, where he displayed unusual talent for playing the piano by ear. Even before his formal studies began he was able to play Chopin Etudes and similar compositions. Because of this ability, an eminent New Orleans teacher, Corinne Mayer, offered him a scholarship. Under her direction, he became a well-known pianist in New Orleans, won a Philharmonic contest, and gave many recitals.

Johnson and Milliken have been playing two pianos since their undergraduate days at the University of Michigan, where they received both their Bachelor's and Master's degrees. They were pupils of John Kollen and Guy Maier, and have been members of Artur Schnabel's Master classes at Ann Arbor.

It was at the suggestion of Maier, well known for his work as a member of the Maier-Pattison concert team, that they combined their talents in a career as duo-pianists. The duo-pianist coached with Maier at the Juilliard School in New York. Still in their twenties, they have played extensively. Their recitals have received enthusiastic response from both audiences and critics.

New Director ESA Takes Over

The Division of Employment Security Agency has been given a new impetus with the appointment of Charles A. Ricker as its director.

The Division of Employment Security is the state Agency which administers employment service and the unemployment compensation programs. The Employment Service registers and catalogs workers according to their employment experience and skill. Workers are referred to employers for consideration in filling of openings in their factories, offices and farms.

The Unemployment Compensation Law provides weekly payments to workers who have lost their jobs. Workers who have quit or are discharged from their jobs are not eligible for the jobless pay if it is found they quit without good cause or were discharged for misconduct. Benefits paid to unemployed workers are charged against the employer's reserve account. The amount of money retained in the reserve account determines the tax rate the employer must pay for the next taxable year.

Mr. Ricker joined the ranks of the Agency in 1937. Since that time he has worked in all departments of the Administrative Office in Jefferson City.

Police Switch AM to FM Broadcasting

Equipment Rented From Telephone Co. Change in Effect

The Sedalia Police department has switched its radio broadcasting from AM to FM frequency, in accordance with a recent order by the Federal Communication Commission, that all police AM radio's would be discontinued and must switch to the higher frequencies. The change over became effective several days ago under a special and temporary permit issued by the FCC.

Under the new system the Southwestern Bell Telephone Co., is furnishing the new Motorola radio equipment under rental basis, replacing the old AM equipment which was owned by the city of Sedalia. Although the rental basis runs a little more costly each month than the old maintenance system, the city does not have a heavy investment in radio equipment, which after a certain length of time becomes obsolete and depreciates to a low cost. At the same time the equipment under the new system include maintenance work, without extra charge.

Had Engineer Heretofore

Heretofore the city paid an engineer a monthly salary of $35 and paid for all necessary tubes and other materials needed in repairing the radio equipment. It was estimated the cost over a period of a year would run more than $60 a month. The rentals on the equipment installed with two additional radio sets one for the fire department and one for the chief of police car is a total of $104.

It also gives the police and fire department more up-to-date equipment other than just a two-way service between the central radio station at police headquarters and the automobiles—it gives a car to car connection as well.

In Touch With Each Other

The system will enable the police to be in constant touch with each other when and if they become involved in a chase, or when on a man hunt. This will also give a better communication system between the police and the Missouri state highway patrol. Because of the new type radio system far better reception can be had under all weather conditions.

At present the two patrol cars have mobile equipment as does Chief Edgar Neighbors' own private car, which enables him to be in constant touch with police headquarters.

A two-way radio set is to be installed on the fire truck at Fire headquarters, which gives a constant touch with the police in case a second alarm is received, thus doing away with any delay in the fire companies receiving an alarm while either enroute to a fire or while at a fire.

Can Contact Patrol

The dispatcher set is so arrangthat a flip of a switch puts the Sedalia police on a frequency over which they can contact the state patrol and Lee's Summit. A receiver will be located at police headquarters which will receive all calls dispatched from the state patrol, and those concerning local investigations and such, will immediately be rebroadcast to the patrol cars.

John Davidson, a radio engineer, and Hollis Hickman, both of the telephone company were in charge of the installation.

Climbing of the 100 foot tower on which the antenna is attached at the city hall, was done by Delmar Brown, who is employed by J. C. Angel. Brown went to the top of the tower, removed the old AM antenna and then attached the new folden unipole antenna for FM use.

The station broadcasting set and the mobile sets are on 155.25 megacycles.

Angel, is seen at the tower of the Sedalia Police top of the 100 foot radio preparing to receive the new FM antenna which is now attached to the top of the tower for the new Motorola FM radio at the police station. The work was under the direction of the Southwestern Bell Telephone Co., which also installed and is maintaining the radios for the police. (Police Photo)

The alertness of Jimmy Schmitt, 13, member of the School Patrol at Washington school, had much to do with catching La Rue when he sped passed his school stop sign and turned west on Seventh street from Engineer avenue. Convicted in Murder Case

Jury For a Life Term to Arthur Lee Bradley

MEXICO, Mo., April 21—(AP)—The man who said he wasn't there was convicted of first degree murder today in the hold-up slaying of Roy Eubanks, Moberly filling station operator.

He is Alfred Lee Bradley, 30, the last of five men arrested and charged with first degree murder in the case.

A jury of nine men and three women deliberated for 45 minutes and then returned the verdict of guilty and recommended a life sentence.

Bradley remained calm during the reading of the verdict. His attorney said he would file a motion for a new trial.

During the trial, which began Monday, the defendant had taken the stand to deny that he was at Eubanks' filling station December 7, 1947 when some men held up a card game, took $1,300 and fled, leaving Eubanks mortally wounded.

Instead, Bradley said, the victim had talked to him several times about arranging a hold-up of card games in the place.

"The week before the robbery he talked to me again in Moberly and proposed the whole plan," he testified.

Two In For Life Terms

Support for his contention came from Jack Babcock and William Wiley, who pleaded guilty and now are serving life terms for the murder.

Bradley, they said, had no connection with the crime.

But Herman Alva Robinson, one of two men still awaiting trial, had different version. Testifying for the state, he pointed Badley out as the "finger man" and declared that Bradley shared in the loot.

The fourth man in the case, Arthur Schofield, is undergoing a 30-day examination at the state hospital in Fulton.

All but Bradley are Kansas City men.

Robinson in his testimony for the state related that Bradley had proposed the hold-up saying there was "a big crap game down at Moberly we ought to get ten or twenty thousand out of."

He said Bradley drove the four other men to Moberly, but that he and Bradley remained in the car outside the filling station during the hold-up.

"When we all got back in the car," he related, "everybody started giving Schofield hell for shooting Eubanks."

The case was brought here on a change of venue from Randolph county.

Admits Brutal Sex Slaying

EAST LANSING, Mich., April 21—(AP)—An unemotional, freckle-faced youth today admitted the brutal sex slaying of his tiny 6-year old playmate, State Police Commissioner Donald S. Leonard, said.

The youth, Theodore Hilles, an undersized 19-year old, was picked up on highway M-36 about a mile and a half west of Pinckney, Mich., at 10:45 a. m.

He was captured only nine hours after George (Peanuts) Counter was beaten and strangled in the basement of a hotel garage.

The child's nude charred body was found by police early today on an ash pile in the garage. Police said the slayer had attempted to shove it into a furnace.

Leonard said Hilles "confessed to the whole thing" when brought to state police headquarters here.

"This apparently was a sex deal," Leonard said.

State troopers Wallace Teddy and John Mahon of the Brighton Post arrested Hilles, who surrendered without a struggle. The officers said he refused to give his name. They identified him by cards in his wallet.

No Decision On Huge Carrier

WASHINGTON, April 21—(AP)—President Truman said today that he has made no decision on whether the Navy's super aircraft carrier will be completed.

Told at his news conference that the keel of the carrier was laid last Monday, Mr. Truman remarked that he was not invited to it.

"Is it going to be built?" a reporter pressed. Mr. Truman said he couldn't answer the question.

When the matter is submitted to him, he said, he will make a decision just as he always makes decisions when they reach his level.

The proposed 65,000-ton carrier is estimated to cost $186,000,000. Unofficial estimates of its cost, equipped with planes, have ranged as high as $800,000,000.

Insist on Free Flow of News

WASHINGTON, April 21—(AP)—American newspaper editors were urged today to be on guard against attempts to hamper a free flow of news at home or abroad.

President Erwin D. Canham cautioned the American Society of Newspaper editors at the opening of its three-day annual meeting that the United States faces a hard fight in its attempt to get the United Nations to agree to a free international flow of information.

Basil L. Walters, executive editor of the Knight newspapers, told the society there is a growing tendency, in the United States as well as abroad, to hinder the freedom of information. He said some officials "forget they are the stewards of the people."

A special committee on the foreign information program, headed by J. Russell Wiggins of the Washington Post, urged that the state department be given more money to step up the "propaganda of truth" being sent abroad. The committee called the struggle for the control of men's minds "the crucial battle of our time."

Canham, who is editor of the Christian Science Monitor, told the 300 or more assembled editors that the fight to get a satisfactory freedom of information agreement had become "an uphill and dangerous business." He said that efforts are being made, through amendments, to alter the proposed conventions so that they would become a means of imposing new controls and limitations on the press.

In asserting that public officials are tending to impede news gathering, Walters said the trend is noticeable in small towns as well as in Washington.

Advise John L. Lewis 'Go Easy'

WASHINGTON, April 21—(AP)—The Southern Coal Producers Association advised John L. Lewis today to go easy with his demands this year or coal "might be priced right out of the market."

The association thus beat the United Mine Workers president to the first punch in the 1949 contract contest. It made its appeal in a formal request for early negotiations on a new agreement to replace the present contract which expires June 30.

Lewis has already called his 200-man policy committee together here next Monday to frame the union's new demands. Lewis had no immediate comment on what the Southern Association President, Joseph E. Moody, told him.

Moody formally notifying Lewis of expiration of the agreement six weeks from now, appealed for a "cooperative attitude" in working out a new one.
